

### COUNCIL APPROVE SUGGESTION FOR A HIGH SCHOOL DISTRICT

**Board Of Education Submits A Brief For A School District Comprising The Town And Township Instead Of The Proposed School Area Plan—Under Area Plan Pupils Would In All Likelihood Be Transported To Beamsville.**

At last Friday night's meeting Town Council took a decided stand against the proposed High School Area idea and unanimously endorsed a suggested brief regarding school districts as submitted by the Grimsby Board of Education.

T. L. Dymond, Chairman of the Board of Education, in speaking to Council stated that Grimsby now has a population of 2,414, an increase of 21.3 per cent in the last five years. In speaking of the question before Council he said: "Some years ago the Department of Education devised a plan to rearrange High School districts in various counties into larger school areas. The plan to be carried out by a Consultative Committee appointed by County Council. The areas to be laid out according to population, assessment, etc. The Consultative Committee recently held a meeting in Grimsby of all bodies concerned. This plan affects Grimsby, Beamsville and Smithville High Schools."

Continuing Mr. Dymond stated "The plan they suggested was not satisfactory to your Board of Education. Under the plan a Board would be appointed by County Council. They could enlarge buildings in Beamsville and pupils from Grimsby and Smithville be transported there by bus. Your Board thought that this arrangement

### 1948 CHOIR SINGER

With no thought of being sacrilegious, or in any way making light of songs of a sacred nature, we submit the following list of appropriate songs to sing while driving a car at various speeds:

At 45 miles per hour, sing "Highways Are Happy Ways."

At 55 miles, sing "I'm But A Stranger Here, Heaven Is My Home."

At 65 miles, sing "Nearer My God To Thee."

At 75 miles, sing "When The Roll Is Called Up Yonder, I'll Be There."

At 85 miles, sing "Lord, I'm Coming Home."

### CANADIAN COUNCIL OF BLIND HOLD SUCCESSFUL CONVENTION

#### MEASLES START LIKE THE ORDINARY COLD

So Far In 1948 There Have Been 292 Cases In Lincoln County, But No Deaths.

(By D. V. CURREY, M.O.H., Lincoln Health Unit)

Perhaps the most contagious of all children's diseases is Measles, most cases of which occur during the months of April and May. This disease is very dangerous to infants as well as weak and undernourished children because of the complications of pneumonia, infection in the ears, and an attack is occasionally followed by tuberculosis. Some of the after effects may be impaired eyesight, or hearing, so that parents are advised to protect babies and young children from unnecessary exposure.

Measles starts like an ordinary cold and seems to be most contagious during this period. It is readily spread by the patient sneezing or coughing. A red rash appears about three or four days after the first symptoms and the patient is ill for about a week. Human convalescent serum is available, not so much to prevent measles from developing, but to help lessen the severity of the attack in those who have been exposed. If the child shows any signs of measles, keep it away from other children, who have never had the disease, call your doctor at once and follow his advice.

During 1948 there have been 192 cases of Measles in the County of Lincoln, but there have been no deaths.

It's sometimes a big order to keep law and order.

### TRUCK DRIVER BORN UNDER LUCKY STAR

Damaged Truck Runs Wild Down Mountain And Through Heavy Traffic On Grimsby Streets.

In an accident described by police as being one of the one-in-a-million variety, a heavily loaded truck, after its brakes failed, careened down the Grimsby Mountain Hill on Saturday evening completely out of control, zig-zagged down Mountain Street for two blocks, then shot across the Main Street, No. 8 Highway to Elizabeth Street, and on down for another two blocks to Victoria Avenue, without hitting a single vehicle.

The truck, carrying a load of four tons of bagged cement, owned by C. Sherratt Builders' Supplies, of Lakeview, was in charge of L. H. Munro, 22, Crescent Beach. At least 50 bags of cement were

### GRIMSBY WEATHER

Week ending at 8 a.m., Monday, May 17th, 1948.  
Highest temperature 71.2  
Lowest temperature 39.0  
Precipitation 2.21 inches  
Top soil wet.

### LINCOLN COUNTY HEALTH UNIT HAD A BUSY MONTH IN APRIL

#### VITAL STATISTICS

The population of the Unit area is given as 70,356. During the month there were 42 marriages reported. There were 157 births and 62 deaths, two of which were babies under one year of age. The chief causes of death were: heart disease 34; cancer 12; pneumonia 2; accidental 2; tuberculosis 2; all other causes 8.

#### CLINICS

##### Chest

There were 4 clinics at the St. Catharines General Hospital, with a total of 95 examinations. At the beginning of the month our register showed 583 cases of tuberculosis, 1 new case was reported and 8 cases moved in. There were 2 deaths, 6 cases moved out, further follow-up not necessary 7, so that the total number of cases on the register at the end of April was 577.

##### Child Health

There were 31 clinics held during the month with a total attendance of 929; registrations 209; return visits 729.

#### MEDICAL SERVICES

##### Office Work

During April there were 314 vaccinated against smallpox; 39 completed diphtheria toxoid; 295 completed diphtheria toxoid with pertussis vaccine. There were also 326 certificates issued. This work was done for 226 infants, 116 preschool, 279 school pupils, and 35 adults.

##### Elementary Schools

126 examinations were done in the schools with the parent present, 141 by request, and 81 special examinations. 138 pupils had no defects, 74 were referred for observation and 115 were reported to the parents because of defects.

##### Secondary Schools

There were 22 consultations with students, 50 examinations, and no first-aid treatments. 32 pupils had no defects affecting health, 21 were referred for observation, and 1 was referred to the physician.

##### Child Health Clinics

346 infants and preschool children were seen by the Medical Officer.

**Ontario Division Delegates Have Three Day Conference At The Village Inn—Attend St. Andrew's Church Where A Blind Delegate Read The Scriptures From A Braille Transcription.**

The fifth annual meeting of the Ontario Division, The Canadian Council of the Blind opened Friday morning, May 14th, at the Village Inn. Mr. James A. Jackson, Chairman, introduced Mr. Henry Bull, Mayor of Grimsby, who welcomed the delegates and wished them success in their deliberations. Mrs. W. C. Bending, President of the National Council, thanked his worship for the hospitality extended by the Town of Grimsby, gateway to the garden of Canada.

In opening the meeting, Isaiah 42:16 was read "And I will bring the blind by a way that they knew not; I will lead them in paths that they have not known; I will make darkness light before them, and crooked things straight. These things will I do unto them, and not forsake them."

Delegates from Windsor, London, Stratford, Kitchener, Hamilton, St. Catharines, Toronto, Kingston, Peterborough, Ottawa and Montreal were introduced. Among other deliberations the fact that blind persons are required to pay a higher premium for life insurance was verified. Research in a lighter type of White Cane, particularly for the use of sightless women, is under way. As yet, no satisfactory results have been obtained.

The Canadian Council of the Blind, with the co-operation of The Canadian National Institute For

### WILL MAKE SURVEY OF EROSION CONDITIONS

Letter Received By Association From Ontario Department Of Planning And Development Gives Details.

The provincial government will make a preliminary survey this summer of erosion conditions in Ontario districts bordering on the Great Lakes, it has been learned. S. H. Fleming, K.C., of St. Catharines, secretary of the Ontario Shore and Beach Preservation Association, said Friday he had received a letter from the Ontario department of planning and development giving details of the proposed survey. The survey stems from resolutions which the association has passed on several occasions.

The letter which quotes Planning Minister Dana Porter as authority, stresses that this summer's survey will be of a preliminary nature only. "It will attempt only to make an appraisal of the erosion condition as it is on the shores of the Great Lakes included in your association, and will also attempt to point out in a general way how such erosion problems are being solved in the United States, with some information on the cost of such works," the letter said.

It is hoped that results of the survey will be embodied in a re-

## New Site For Hospital As Selected, Approved

### UNITED STATES SOLDIER BURIED AT GRIMSBY

The body of Pte. 1st Class John Wesley VanDyke, United States soldier killed in action in Belgium on January 15, 1945, was re-buried in the family plot in Queen's Lawn Cemetery, Grimsby, on Wednesday morning of last week, with full Canadian Legion honours. Following a short service at the Stonehouse Funeral Home, Requiem Mass for repose of the soldier's soul was celebrated in St. Joseph's Church by the Rev. B. A. O'Donnell. Taken at the committal, this photograph shows the casket bearers, United States soldiers and members of the Canadian Legion, holding the Stars and Stripes over the casket while Father O'Donnell reads the burial service. At the right are the father, M. L. VanDyke, formerly of Grimsby, and other mourners.

## COUNCIL PASS NEW TIME RULE THEN IMMEDIATELY BREAK IT

### DISTRICT STUDENTS GRADUATE FROM MCMASTER UNIVERSITY

#### CONGRATULATES LIONS ON THEIR PROGRESS

Dr. D. V. Currey, M.O.H. For Lincoln Guest Speaker—Nominations Held—Civic Committee Planning New Projects.

In the absence of President Aub Crichton, Lion Carm Millyard presided at the May 18th meeting of the Grimsby Lions Club, held in the Oak Room of the Village Inn. A recent report of a meeting of the Nominating Committee was read by Lion Russell Terry, and in which the following Lions were nominated for office for the 1948-49 term.

President—C. D. Millyard.  
1st Vice Pres.—Earl J. Marsh.  
2nd Vice Pres.—Robt. Johnson.  
3rd Vice Pres.—Kenneth Baxter.  
Secretary—Vernon Tuck.  
Treasurer—Reg. Henderson.  
Tall Twister—Dick Mitchell.  
Lion Tamer—Harold Jarvis.  
Directors: On to go, D. E. Anderson, Bert Constable; Two years, (Continued on Page 7)

### ANDY CLARKE PASSES AWAY

The death came suddenly last night, at his home in York Mills, of Andy Clarke, well known newspaperman and radio personality. He was an old Grimsby boy and the first man in Canada to broadcast news direct from the room of a great metropolis. Of recent years he became internationally famous for his Sunday morning broadcast of "Neighbourly News," a program made up of quaint and interesting items culled from the weekly papers of Ontario. Mrs. W. F. Randall, of Vinemount, is a sister and the only surviving member of the family of the late George and Mrs. Clarke.

Many Honours And Degrees Brought To West Lincoln By Sons And Daughters Of Grimsby, Beamsville, Winona, South Grimsby And Caistor—Many In Attendance.

Amidst intermittent downpours, two hundred and sixty graduates of McMaster University, Hamilton, had Degrees conferred upon them, denoting three and four years of academic endeavours. It was the largest graduating class of McMaster's twenty year history in Hamilton.

The spacious Drill Hall was filled with parents and friends of these young men and women who were being honoured by those persons close to them as well as by the Governors, Senate and the Faculty of McMaster University.

Following the Invocation, Honorary Degrees were bestowed upon three outstanding persons. Herbert Sydney Hillyer, noted for his missionary work in distant fields, was awarded the Doctor of Divinity Degree.

### PIPELINE POWER FROM NIAGARA CONSIDERED

Transmission Of Compressed Air To Engines In Canada And U.S. Studied Before Hydro Developed.

Piping power, in the form of compressed air, from Niagara Falls to "steam" engines in Canada and the United States, was seriously considered when plans for harnessing Niagara were being formulated.

This is one of the lesser-known facts which have cropped up now that the Ontario Hydro-Electric Power Commission is working on a power project from 25 to 60-cycle P.C. The change-over cost has been estimated at \$191,000,000 and is why Premier Drew has described it as a "main issue in the Ontario election."

In 1899 decision to generate and transmit 25-cycle power was made by international board, (Continued on page 6)

Pass Motion To Adjourn At 11 O'clock And Then Sit Until 11.30 — Councillor Bonham Wants More Meetings Per Year—Coun. Braid Wants All Streets Properly Signed — Council Favored Nelles Hospital Site.

Just about everything under the sun pertaining to the operation of a municipality like Grimsby, was discussed at last Friday night's council meeting. There were some dull, dull moments, some fiery moments and some amusing moments.

The masterpiece of the evening as observed by the press table, was the passing of the first motion which was as follows:

Scott-Constable—"Whereas, the meetings of this Council having been unduly prolonged in the past, be it resolved that this council do adjourn not later than the hour of 11 p.m. and that all unfinished business be dealt with at a special adjourned meeting to be held at the earliest convenient date." Couns. Bonham, Lewis and Braid voting nay.

Council then proceeded to immediately forget about this motion and did not adjourn until 11.30. In connection with the motion Coun. Bonham stated, "This town no longer has a population of 1,000. We cannot do the business of this town in two or two and one-half hours once a month. Let us make it more meetings a year even up to 18 in number and do the thing right and not be met-

(Continued on Page 6)

## TOWNSHIP TAX RATE 32 MILLS SCHOOL RATES ARE INCREASED

At a special meeting of North Grimsby Council on Monday night the tax rate for the year was struck at 32 mills on the dollar for general and county purposes, the school section rates being separate.

The township rate is made up of general purposes 11 mills; hospital one mill; County Rate 17 mills; general school rate three mills; total 32 mills. There is an increase in the township general rate of 8/10ths of a mill incurred entirely by the purchase of the new fire truck. The County Rate is increased

Department Of Health Has Given Hospital Board The "Go Ahead" Signal On The No. 8 Highway Property—Medical Council Prefer This Site—Approximately Three Acres Will Be Purchased With 400 Foot Frontage On Highway With Building Sitting Back 100 Feet.

Last week the Provincial Department of Health approved the recommendation of the Hospital Board to build on the Nelles property, three quarters of a mile east of Grimsby Post Office on No. 8 Highway.

As announced elsewhere in this issue of The Independent this recommendation is in keeping with the wishes expressed at a public meeting and also the studied opinion of the Medical Council of this district, which has the responsibility for and the care of our sick, and it is its prerogative to state what is required in their best interests.

The Board have been fortunate in securing the service of Mr. Chester Wood of Toronto as architect in charge of design and the building of this Hospital, which presents many problems, some of which are: conserving the amount of money that will be available at best, with which to build for the present and future, in a district where the population has increased 24.5% in the last five years, and which will, without doubt, continue to increase in the years ahead.

It is expected that several designs will be submitted very shortly.

(Continued on page 6)

### WHAT WILL GRIMSBY'S REFUND AMOUNT TO

Ontario Hydro Commission To Pay Back \$3,115,403 To Local Communities In 296 Municipalities.

Refunds totalling \$3,115,403 will be made to 296 municipal hydro commissions in the Southern Ontario system by the Ontario Hydro-Electric Power Commission as a result of last year's operations. This was the information given last Thursday by Hydro Chairman Robert H. Saunders in response to a query.

These refunds or credits, known as Hydro's "13th bill," arise from the commission's policy of providing power at cost. Throughout the year the municipal commissions are billed monthly at an interim rate.

When the provincial commission's books are made up at the end of the year, and it has been

## FACTS &amp; FANCIES

Frank Fairborn, Jr.

## THE DOLLAR BREAKDOWN

The Board of Trade of Brantford receives editorial kudos this week in The Financial Post for an instructional piece of work which reveals the dollar breakdown for a group of Brantford factories. Cockshutt Plow and Waterous were two of the bigger companies from which the statistics were derived.

Out of every factory dollar:

64 1-2 cents went for materials, supplies, etc.

26 1-2 cents went for wages.

5 1-3 cents went for taxes.

2 2-3 cents was retained in the business for plant renewal, extension, etc.

and nine-tenths of a cent was paid to shareholders.

The investigation also showed that for every 100 employees, there were 92 shareholders; that the average annual pay for each employee is 27 times the amount paid to each shareholder; that it takes an average capital investment of \$4,764 to provide a job for each person on these payrolls.

Even the dividends received by the shareholders in industrial enterprises are not clear take-home pay. The dividends are taxed as individual income and there is no escape.

## PUBLISHING COSTS DOUBLED

Further increases in Canadian advertising rates were predicted by Floyd C. Chalmers, president, Periodical Press Association in a recent Toronto address. Mr. Chalmers pointed out that the moderate increase in advertising rates in recent years has not been nearly sufficient to absorb extra costs. He argued that more flexible advertising rates were necessary so that publishers would be able to adjust rates to rising costs "as quickly as in any other business."

This speaker estimated that the cost of turning out a publication had doubled since before the war and cited these specific increases since 1940 for one large publishing company:

Paper .....	76%
Pressroom .....	83%
Bindery .....	108%
Composition .....	110%
Mailing .....	140%

Practically everything the publisher must purchase is subject to price increases on short notice, Mr. Chalmers stated. By the time he gets delivery on a press the price may have advanced from 10 to 25 per cent and this increase, under the original contract, must be paid. In less than two years there have been six increases in paper prices. Engraving costs, wages and salaries have moved up steadily. Under such circumstances the rather wide-spread practice of guaranteeing advertising rates up to 12 months in advance cannot be considered sound business.

The increases quoted above are for a large publication, but such have to be met to greater or less degree by weekly newspapers as well. The percentage of raise in newsprint such as used in the production of The Independent is much greater than the 76% quoted by Mr. Chalmers. In 1939 this newsprint was selling at \$72 a ton, whereas it costs us \$138 today—almost double.

## AUTOISTS FACE PROSECUTION

Every once in a while, it becomes necessary to issue a warning to auto drivers, who, driven merely by curiosity, crowd the fire trucks on their way to a fire, until the firemen are hard put to find room to turn the truck, or to handle the equipment necessary to fight the fire.

This is not hypothetical—actually, at recent fires, firemen found themselves so closely hemmed in with autos that they could barely maneuver their equipment. Not only is this unnecessary, but it is definitely against the law, and Chief Alf LePage has told The Independent in no uncertain terms that the next offenders in this respect will be prosecuted without further warning.

The Highway Traffic Act, Sec. 39, sub. sec. 1, reads in part:

"No vehicle shall follow any Fire Department vehicle when responding to an alarm at

a distance of less than 500 feet. . . .

The subsection goes on to outline the penalties as follows: For the first offense, not more than \$10.00 and costs; for the second offence not less than \$10.00 and costs; and for subsequent offences, not less than \$25.00 and costs. In addition, there is the possibility of the cancellation of the driver's permit for a period not exceeding 30 days.

There is a reason for making such a law, and there is a reason for enforcing it. When fire strikes, seconds often count, and where, as in Grimsby, we rely on a volunteer department, nothing must interfere with the progress either of the trucks or the firemen's cars.

Firemen must leave their jobs all over town, jump in their cars and make for the fire with all due speed if they are to keep the loss to a minimum. That they do keep it to a minimum is evidenced by the low and attractive fire insurance rates we enjoy.

Under these circumstances it is not right that a fireman who has to come for some distance should have to park his car two or three blocks from the fire and walk; neither is it right that his efforts to reach the fire should be impeded by people whose sole aim, for the duration of that fire, is to stand and gape.

The Independent trusts that in this instance a word to the wise will be sufficient. The law is there and is specific in its clauses—make sure that you are not the first one to face the magistrate for breaking it.

## MUNICIPAL GOVERNMENT

The following editorial from the Penticton Herald is, we think, of interest to even the smaller towns. The increased tempo of present day life has made a good many municipal jobs which used to be more in the nature of recreation than good hard work, an ever increasing burden on the men who fill them. For this reason it becomes harder to get men of experience to take on the duties which used to be considered an honour. Maybe before long this will prove the solution.

"An article in a recent issue of the 'New Republic' points out that one out of every four cities of over 10,000 population in the United States now has the council-manager system in operation. It reminded us once again of this subject.

"If the present rate of adoption continues, the council-manager plan will become the prevailing form of local government within the next decade," the article emphasizes.

"In Canada, as well as in the United States, there has been increasing interest in this type of municipal administration. Every once in a while the suggestion raises its head in Penticton. Some day it will actually come into operation.

"What is this 'city manager' idea? First of all, we mean a surrender of final control and authority by the elected council. The council members would continue as a supervising board of directors, regulating policy, having the final say—just as in any corporation—there would be one full-time managing-director, a professional executive capable of dealing with the complexities of modern civic affairs, fully empowered to deal with all staffs and operations with the same efficient discipline that pertains to any other business, and correlating all activities.

## TOUGH ON BRITONS

Of course Britons never shall be slaves. They fought and beat aKiserism, and years later smashed Hitlerism, but the cold fact is that they are today enslaved by 25,000 rules and regulations by which the life of every man, woman and child is harassed. These regulations are mostly shrouded in painful and almost unintelligible legal language and fill six hefty volumes known as "Butterworth's Emergency Legislation Service." That is the story told in a recent issue of The Wall Street Journal in a colorful despatch from London.

The writer lays it down that government control has become Britain's biggest industry and a standing music hall joke. It is the supremacy of an overwhelming bureaucracy. And the worst feature of the condition is that honest Britons are being driven into law-breaking, a great many with deliberation and an equal number breaking the rules without even knowing it. Consider their plight:

The Ministry of Food with its rations tells 47 million Britons what to eat for breakfast, lunch and dinner.

The Board of Trade decides how much clothing they can buy.

The Ministry of Health controls the building and repair of homes.

The Ministry of Fuel determines which of them may drive an auto—and where they go in it.

The Treasury prescribes which foreign countries they may visit.

The Ministry of Agriculture has the last word on who can kill a pig.

The Ministry of Supply parcels out steel and other supplies to industry.

Examples are quoted not only of asinine decisions by authoritative boards and officials, but these decisions are couched in asinine language. These examples are illuminating:

"The Board of Trade produced an edict that metal discs be attached to the horns of pedigreed Angus bulls being exported. Later the order was amended; it required instead that the horns should be branded. Then it

"If the council members themselves attempt to do any measure of routine supervision, they quickly discover under prevailing circumstances in most municipalities that they've fallen into full-time jobs, that is if they're to try to keep their eye on only a small part of what needs supervising. They have to depend on subordinate officials—who in turn are handicapped by the fact that they usually have only limited authority, or share divided authority, and who often have inadequate all-round training.

"If business seeks a director for a factory or a coal mine, it gets a man with the experience and training, puts him in full-time control on the job. Our municipal business is big and complex. It deserves and will indeed have to have something more efficient on the administrative plane.

"Such developments cannot come quickly. For one thing, there is a scarcity of the trained personnel, and such changes must be geared to varying circumstances.

"But make no mistake about it. The council-manager plan is the eventual solution to the ever-growing demands of municipal corporation business, and we hope that as time proceeds the public will be educated to that point where it will ask and support such a program. Meanwhile let's keep the aim before us"

## LITTER IN THE STREETS

The appearance of many towns is marred by the habit which some of their town people have, of throwing small articles of paper on the streets or sidewalks. This gives an impression of disorder and lack of neatness. Some people seem to think that if they buy something in a paper bag or wrapper, they are entitled to throw the bag or wrapper into the street.

They can make a contribution to the appearance of their home town, if they would throw such bits of paper into a proper receptacle or take it home and dispose of it where it is not open to view. A community where this habit of taking proper care of litter is observed, makes an excellent appearance, and its people should be complimented on this careful way of handling refuse.

## CONTRIBUTIONS TO HOME TOWN

A town may be described as consisting of a group of people who live together in a community because of the advantages they get in the way of employment, in business, in educational and various privileges, in protection of themselves and their interests, and the enjoyment they find in the town life.

Having received these advantages, it is up to people to make a reasonable contribution in return for the same. The payment of taxes, whether assessed directly on property or income, or paid indirectly in some way, is such a contribution of very great value, as it supports absolutely essential services and institutions. The people all contribute in this way.

People make a very important contribution when they obey the laws and act as good citizens. Faithful work in their occupation is also a contribution of high value, and it maintains the prosperity of the community and its ability to accomplish gains and progress. The people who try to render efficient service in their jobs or business, help to spread the reputation of the community and to assure its success and development.

was revoked—the board discovered Angus bulls don't have horns at all.

"An Australian married in Britain sent pieces of wedding cake home to friends. His packages were returned empty with an official note that 'confectionery may not be exported.'

"A regulation was dreamed up to prohibit picking or sale of small green onions. The simple British farmer was given to understand that 'diameter shall be construed as meaning the maximum diameter of the bulb measured at right angles to the axis through the bulb and shoot.'

"An American businessman in Britain wanted to accept a typewriter being sent to him from his home office in the U.S. No money was involved, yet he had to get an import license. It took three weeks to get the application papers; three months to get the license. When it turned out the typewriter was of a different make than specified, the license had to be altered. That took another three months.

"A group of former Polish soldiers were trained at considerable expense as makers of surgical instruments. They were to be absorbed in British industry, so set up in business in pre-fab huts. Needing more space, they decided to build additional huts. For this they required a building license. Their application was turned down. So back they went to their resettlement centre, to be retrained in some other line of work."

One can go through the alphabet of regulations—anchovies and antiques, beads and blotters and sometimes the penalty for non-observance is thousands of dollars. But when we hear in Canada socialism from the soap-box, just regard Britain as of today, the biggest employer in the nation is the government, with its two million servants all on the public payroll or feeding at the public trough with pensions in sight after a period of years, naturally. The British government is boss sure enough of the planned economy, but at what a cost, also distress, to the people of every rank and station!

And still the fruit crop is not ruined.

With the sun shining on both sides of the street on Saturday the Old Drag was really back to normal.

And Wee Willie Hewson is a grandpappy. What does that make Audrey, the best looking grandmammy in town?

Hugh Whyte and Throckmorton Jarvis are to be congratulated. That new block and store of Carroll's really brings Broadway to Main Street.

Traffic over both No. 5 and the Queen Elizabeth was very heavy for the Fruit Belt's third Blossom Sunday. Even at that we had rain in the afternoon. Old Jupe Pluv has been very unkind to us this Spring.

The weather has cleared and Red Graham has gone back to farming. He predicts that he will have new murrays on the table by the 15th of June. By the time that Roderick harvests his crop next Autumn the world need have no fear of starvation.

Last Autumn Mayor Bull succeeded in having the flower (weed) bed in the triangle beauty spot at the junctions of Main, Elm and Gibson cleaned up as an unsightly spot. Has anything been done this Spring by Property Chairman Constable to have this bed planted with flowers?

I met one of Grimsby's Sweet Young Things on the street Saturday at mid-sun and I said "how are you?" and she replied "not very good." I said "What's the trouble?" and she came back like this: "I don't know. I'm in a bad humor. I could kick the teeth out of my grandmother, if I had a grandmother, and she had any teeth."

If and when the Grimsby Hydro Commission receive that 13th bill from the Ontario Hydro Commission I hope that they take some of the do-ri-me and present a testimonial to Archie Aiton, on behalf of the citizenry of Grimsby, for he is the man that brought Hydro to Grimsby, and all the electrical prosperity that has come with it.

I observe that Grimsby has a second Town Dump. How come? Is the dump at the lake filled up. This second dump is on Oak street, opposite Elm street, on the bank of the property south of the distillery property. It is certainly a beautiful and sanitary spot. I feel confident that Mayor Bull does not know of this dump or there would have been ructions long ago.

The Greatest Street In The World was sure sizzling on Saturday afternoon. It took this columnist 16 minutes to get across the stem. And that was not because I had anything of an amber colored nature either. It was just because the world was waking up to the fact that Grimsby still existed. From Oak street to Mountain street on both sides of the drag the cash registers were playing a merry tune. It is only when you are a big town that cash registers ring like that.

Sometimes I get mad. I got mad the other day when I heard a retired farmer, who is trying to live off the interest of a few thousand bucks, berating the service that is given by the "Little Blue Bells" that man the switchboard in the local Bell Tel. office. I told that sod-busting imitation millionaire that I used a telephone more times in 24 hours than he used in six months and I and none of The Independent staff have any kick on the service that the "Little Blue Bells" are giving all facts and conditions of the present day considered. I use a telephone at nights long after the hay-icker has crawled into his straw tick and to distant points that he never heard tell of and I know what service is. I am getting it and so is every other Bell Tel customer in this district. I'll bet a 1000 to 10 that that grasshopper would not be satisfied if he got his telephone for nothing.

## THE OLD-FASHIONED NIGHT SHIRT

I remember as a youngster that my father used to say

That his father wore a nightshirt till the day he passed away.

My father and my mother used to argue now and then

Whether nightshirts or pyjamas were the proper things for men.

But my father clung to nightshirts, for a stubborn man was he,

So my fondness for that garment's due to my heredity.

Nellie's tried to make me over, as all lovely women do,

Every Christmas time she buys me silk pyjamas, pink and blue,

And I know that they are stylish and that most men wear 'em now,

But the string with which they're girdled seems to bother me somehow,

Though I take them when I travel, both for comfort and for rest,

As my father and his father, I like old style night-shirts best.

All my friends have now surrendered to their women folk, I know,

And alone I fight the battle for a cause of long ago,

But my ancestry was stubborn, and a stubborn man am I,

All the pink and blue pyjamas in the wide world I defy!

Let Bourne and Levine wear 'em—till the day I join the dead,

In a good old-fashioned nightshirt I shall choose to go to bed.

thrown off the vehicle, police said, as it sped through the ordinarily heavily travelled streets.

On Elizabeth Street, they said, it missed a group of playing children by less than a foot.

Only quick arrival of police after the runaway outfit had stopped, prevented the driver from being beaten up by angered residents who had seen the narrow escape of the children.

Following investigation of the truck, police said that the young driver deserved a great deal of credit for the way he had managed to steer the outfit and prevent it rolling over during the wild ride.

**DISTRICT STUDENTS**

gree, while James Wilbert Brien, noted Ontario surgeon, and William Quarrier Stobo, prominent citizen and businessman of Quebec City had conferred upon them the Doctor of Laws Degree.

Eight young men were awarded their Bachelor of Divinity Degrees.

Successful graduates of the four year course who were awarded their Bachelor of Arts Degree, included Lawrence Charles Burgess of Grimsby, Howard L. D'Arcy, Beamsville, Robert D. Lymburner, Smithville and Morris J. Diakowsky, Winona. Also included in this group of forty-two graduates were Miss Jean Shields, Caistor Centre, who was also a joint winner of the Agnes and John MacNeill Memorial Prize, and Joy Louise Trapnell, of Beamsville, who was awarded a scholarship from the North Carolina University.

A graduate of a four year honours course in Physics and Chemistry, Eugene E. Gale, son of Mr. and Mrs. Ernest Gale, Beamsville, was warmly commended by Chancellor Gilmore, who conferred upon this outstanding student the Bachelor of Science Degree.

Additional honours were bestowed upon Mr. Gale, when it was announced that he had been awarded the National Research Scholarship. It was a big afternoon for this particular graduate, for later on in the festivities, His Majesty's Commission was granted to Mr. Gale. He holds the rank of 1st Lieutenant in the Royal Canadian Armoured Corps.

Three other local graduates had conferred upon them their Bachelor of Arts Degree. They are Graham Benerley Jenkins, Beamsville, John Patten Lowden, Lonsbury, Smithville, and Mary Ann Platts, Beamsville.

**CANADIAN COUNCIL**

The Blind have undertaken an intensive campaign to procure better legislation for the blind, pressing for a Six Point Objective.

1. The creation of a Blind Persons' Act separate from and independent of the Old Age Pensions Act.

2. The use of the term "Blindness Allowance" and elimination of the term "Pension."

The elimination of the means test in the award of Blindness Allowance.

4. An adequate rate of Blindness Allowance in relation to the cost of living. Under present circumstances, this would appear to be not less than \$50.00 per month, preferably uniform for all provinces.

5. The reduction of the present residence requirement from twenty years to five years, in the case of a person with normal vision who has taken up residence in Canada in good faith and at any time thereafter has lost his sight.

6. Adequate provision for medical or surgical treatment for eye conditions to conserve or to restore vision and to prevent blindness.

The report of the Committee on Legislation was given by William Gomm of Toronto. There are 14,997 blind Canadians of whom 7,434 are receiving pensions.

Miss Isabel Thomson, Kitchener, Conveer of the Committee on Education presented an outstanding account of the activities of this committee. A recommendation that there should be compulsory education of blind children from eight to sixteen years of age, was adopted by the delegates of the Ontario Division. It was decided to investigate the special training of Teachers for the blind of Canada.

Mrs. J. Patterson, London, Conveer of Recreation Committee, reported that plans have been approved and are underway to open a Summer Camp for the blind, Aug. 9 to 19th, at Ancaster.

This arrangement has been made possible through the co-operation of the Canadian National Institute For The Blind and Hamilton Lions Club. Mr. A. N. Magill, CNIB, Supervisor of Field Services for Ontario, stated that Mr. R. F. Troughton, Manual Trainer, Ontario School for the Blind was appointed to be director of the camp. The camp will accommodate 100 persons, is equipped with a swimming pool and other recreational activities.

Following the business of the day, a banquet was held in the Oak Room of The Village Inn. Among the guests present were Charles Robinson, T. J. A. Fergusson, Ha-

milton, Max Knechtel, St. Catharines, Mr. A. N. Magill, Miss Kailie, Toronto, all representatives of the CNIB. Thomas H. Ross, Liberal member for Hamilton, was guest speaker. His address, both interesting and enlightening, described famous personalities, whom he had met in Ottawa. Gordon Allen of Windsor, thanked the speaker on behalf of the Ontario Division.

Entertainment was provided by two delightful solos by Miss Marjorie Gascoigne, Hamilton, accompanied by Miss Kathryn Sella, ATCM, London, Ontario.

The second day of the conference opened at 9 a.m., May 15th.

The report of the Membership Committee by Ian S. Grills, Brantford, showed a steady and healthy growth, bringing the membership of the Ontario Division to 15 member clubs, and the national membership to 27. The two latest affiliates of the Council are the Friendship Club of Kingston and the Louis Braille Society of Peterborough.

The report of the Publicity Committee by Robert F. Jones, Windsor, showed a great deal of benefit and publicity, especially of White Cane Week, not only as a medium of acquainting the public with the significance of the white cane as a symbol of blindness but also in bringing to the attention of the public, work and needs of the blind.

The Council expressed deep appreciation and thanks to the public for the generous response to their appeal for aid to the blind in coping with the difficulties with present day travel.

The magazine, the "CCB Outlook," is a new project of the blind which is published at 174 Devonshire Ave., London, Ontario, and distributed free to any blind person. At present this is not published in embossed type.

At this point Mr. Jacques Climon, a blind observer from the City of Montreal, was invited to take the chair for the election to fill the various offices of the organization for the ensuing two years. The retiring Chairman, Mr. James Jackson, of Grimsby and Hamilton, thanked the division for support and co-operation, which had resulted in such vast strides being made in the work of the Ontario Division. Mr. Jackson was highly commended by Mrs. Patterson from the floor of the meeting, for his

untiring and selfless efforts on behalf of the division.

The following Executive was elected: Robert F. Jones, Windsor, Chairman; Miss Norma Hughes, Toronto, Vice-Chairman; James Jackson, Hamilton, Immediate Past Chairman. Directors: Mrs. J. Patterson, London; William Gomm, Toronto; Miss Isabel Thomson, Kitchener; Ian Grills, Brantford; Mr. Jean St. Jean, Ottawa.

The following delegates were elected to represent the Ontario Division at the annual meeting of The Canadian Council of the Blind at Ottawa in September: Gordon Allen, Windsor; Miss Isabel Thomson, Kitchener; Ernest Philpott, Hamilton; Miss Norma Hughes, Toronto.

The next annual meeting of the Ontario Division of The Canadian Council of the Blind will be held in Windsor in May.

The delegates attended morning service in St. Andrew's Church, at which Mr. Joseph Smith of London, a totally blind lay reader, read the scriptures from a Braille transcription. Later the delegates paid a visit of inspection to the home and centre for the blind, now nearing completion in St. Catharines. This tour made through transportation provided by Grimsby Lions Club, terminated a very successful conference.

**YOUR CANDIDATE IN LINCOLN**

**KEEP ONTARIO STRONG!  
RE-ELECT CHARLES (Tod) DALEY, JUNE 7**

The Drew Government goes to the people on its record. No man in that government has a better, cleaner record than Ontario's Minister of Labor, the Honorable Charles (od) Daley. A cabinet minister for the past five years, he has shown the way in enlightened labor relations, and in the peaceful settlement of many disputes Progressive legislation has been the key-note of his department, which has been responsible for the introduction of the forty-eight hour week, and compulsory holidays with pay in Ontario. Mr. Daley has earned the confidence and vote of all the people he represents.

**RE-ELECT LINCOLN CNTY'S CABINET MINISTER  
VOTE PROGRESSIVE CONSERVATIVE ON JUNE 7th**

## Nuptials

SMITH-WILSON

St. Clair Avenue United Church, Toronto, was the scene of the interesting wedding Saturday afternoon, at 4 o'clock, when Carolyn Elizabeth, daughter of Mr. and Mrs. Fred Lionel Wilson, Toronto, was united in marriage to Mr. Andrew Wallace Smith, Hamilton, son of Mr. and Mrs. Andrew Smith, Grimsby. The double-ring ceremony was conducted by the Rev. A. E. Kewley, Toronto.

Given in marriage by her father, the bride was lovely in a white crepe gown, fashioned with fitted bodice, the yoke edged with a lace-trimmed fold of crepe, and the full skirt draped into a short train. The long sleeves were also edged with matching lace. A bandeau of flowers held in place her fingertip length veil, and she carried a cascade bouquet in white and pastel tones.

The matron of honour was Mrs. H. E. Dorland, whose gown was of blue satin with net insertions at the neck and in the draped skirt tapering to a point at the back, and her tiara headdress was of flowers harmonizing with her bouquet of white with touches of blue and pink.

Mr. H. E. Dorland, Hamilton, was groomsmen, while those ushering were Mr. Jack Culverwell, Weston, and Mr. W. D. L. Wheeler, Toronto.

Mr. George Marks, as soloist, rendered The Lord's Prayer and I'll Walk Beside You, with Mr. Myri Koeffer at the organ. Mr. Koeffer also played Debussy's Reverie.

Sixty guests were received at the reception afterward. Coral crepe made with a tiered skirt, and black straw hat with matching accessories and roses and bouvardia in her corsage, was worn by the bride's mother, while Mrs. Smith, mother of the groom, was in grey crepe, with touches of pink, her grey hat also trimmed with pink, and her flowers were pink roses and pink carnations.

After a honeymoon trip to Washington, D.C., the couple will reside in Hamilton. For travelling, the bride wore a Burgundy gabardine suit, with grey felt hat, and grey blouse and gloves, while her bag and shoes matched her suit. Her flowers were orchids.

## Trinity W.M.S.

The Women's Missionary Society of Trinity United Church held their May meeting in Trinity Hall on Thursday afternoon. Mrs. John Millar presided. The program was arranged by Mrs. Andrew Bain.

Mrs. W. A. McNiven read from the study book the very interesting story of Mr. and Mrs. Peck, and their work of translating the Bible and teaching among the Indians of Guatemala.

Mrs. E. McAlonen, Mrs. H. Harper and Mrs. M. Zimmerman gave readings, and Mrs. B. Snyder and Mrs. McClure also contributed to the program.

Mrs. Canton, Supply Secretary, reported having sent two parcels containing 22 articles of sewing and knitting to the Relief to China headquarters, and urged the ladies to continue knitting.

The secretary announced the Third Annual Conference for United Church women, to be held at McMaster University, Hamilton, June 8th, 9th, 10th and 11th. Many very fine speakers are to be heard, including Mrs. Roger Self, President of Dominion Board, Dr. Winifred Thomas of Dominion Board, and many others.

The June meeting will be in charge of Mrs. Marcus Hiltz and Mrs. W. Pinder and their committee.

## "TINY TOTS" PREPARE FOR STAGE DEBUT

Great excitement prevails at Sunette's Studio these days as the younger set eagerly anticipate the coming Dance recital on May 28.

The "Tiny Tots" feel very important as they prepare for their "stage debut," while the older pupils practice diligently for their more difficult parts.

In the meantime while the scenery slowly takes shape, there is much hustle and bustle as the colourful costumes for the many tap and ballet numbers are fitted and tried on for effect.

Tap routines and Ballet dances are constantly rehearsed to assure a fine performance on the "long looked forward to" night of the Dance Revue, Friday, May 28th at Trinity Hall.

Some men like to play at politics while others work at it.

## SOCIAL EVENING AT THE PARISH HALL

Last Friday night about one hundred young people enjoyed a social evening and dance at the Parish Hall. The music was provided by Mrs. Florence Baisley at the piano assisted by Don Gardham with his trumpet. Refreshments were served by the ladies of St. Andrew's Woman's Auxiliary.

The next affair will be held on Friday, May 28th, at 8.30 p.m., and thereafter weekly on Friday nights. A nominal admission charge of 25c per person is charged to cover refreshments, etc. Young married people are specially welcomed, also Farm Service personnel. All are urged to be present at their own Church at least once on Sunday.

## ST. ANDREW'S CHURCH

Mr. Joseph Smith, one of the delegates attending the Conference of the Ontario Council, Institute for the Blind, was present and assisted in the mid-day service at St. Andrew's Church last Sunday. A member of St. Andrew's Memorial Church in London, Ontario, Mr. Smith holds a license from the Bishop of Huron as Diocesan Lay Reader. Though totally blind he is able to take part in the services reading from the Braille edition of the Bible and the Prayer Book. Delegates who were still in town following the three-day conference which had been held in The Village Inn were present at the service in a body, and were welcomed by the Rector.

Preaching a special Whitsuntide sermon, the Revd. E. A. Brooks declared that present experience of God as a Power in the lives of people is that which is enshrined in the Christian belief in the Holy Spirit. Sorely tempted people, he said, by the operation of the Holy Spirit achieve self-control. When the motives and actions of people are governed by goodwill rather than by malice and hatred it is evidence that God's Spirit resides in their lives.

## BLOSSOM TIME DANCE

The blossom bedecked Community Hall in Beamsville was well filled for Club 13's Blossom Time Ball, held on Friday night last. Feature of the evening was the selection of pert Joyce Annebell, Mountain View Road, Beamsville, as the Queen of the Ball, and Blossom Queen of West Lincoln for 1948.

Backed by the solid arrangements of Phil Gage and his orchestra the hall was a mass of white blossoms, decoratively arranged by the boys of Club 13. Incidentally, members spent hours scouring the district for blossoms, and had very little luck in locating any abundance of "peach" or apple blossom. The "big rain" almost caused disaster to the Club as well as to the fruit growers.

Stage settings were really solid, thanks largely to the C. H. Prudhomme nursery who loaned the Club a super display of evergreens. These intermingled with pink blossoms (the scarce variety) and spring flowers, completed the stage setting.

This brings to a close Club 13's dance program for the winter and spring season, during which they have presented four definitely distinctive dances for the people of the entire area. The Club would like to express their sincere thanks to the many persons who have patronized their dances, and hope to see them all again next fall. Much of the success of the Club 13 dances has been due to the original and often costly decorating programs that this Club have arranged in the spacious hall. This plus the music of Phil Gage, who played for all four of the Club 13 dances. His stylings were without doubt the most appreciated heard hereabouts for a long time.

## TRINITY UNITED CHOR

Thirty-five members of Trinity United Church Choir were the guests of the choirmaster, Mr. Donald Kennedy, at a dinner party on Saturday evening at "The Pines," Stoney Creek.

Following the dinner several members participated in a most enjoyable program. President Harold Jarvis conducted a sing-song assisted by Dr. D. R. Copeland, following which a humorous sketch was presented by Miss Rita Curran. Mr. Herman Terry of the Rosellino Opera Company sang with dramatic intensity "The Last Rose of Summer," an aria from the opera, "Martha," which is being presented at Eaton Auditorium this week, and in which Mr. Terry has one of the principal solo parts.

A letter was read to the choir from G. B. Heintzman, President of the Heintzman Company, congratulating the choir on the impressive manner in which they

participated in the recent Kiwanis Music Festival.

Misses Jackie Constable and Barbara Bromley gave a vivid description of their Easter trip to New York City, illustrated with pictures and souvenirs.

Mrs. Griffith and Miss Eva Fleming gave brief impromptu talks, and Rev. Leonard Griffith and Mr. Kennedy both expressed their appreciation of the co-operation and faithful service of the choir during the past year.

The program closed with a vote of thanks to the host of the evening given by the president, and the singing of "Auld Lang Syne."

## CARD OF THANKS

May we take this opportunity of thanking all our friends and neighbours who so kindly helped us to move, also for the use of their trucks and cars.

—Mrs. James Scott and family.

## HEALTH CLINIC

At the Well Baby Clinic Tuesday afternoon in St. A. Parish Hall, 32 children and mothers were present. Two of these were infants, 9 pre-school and school age, 2.

Immunizations complete as follows—4 diphtheria and pertussis, 5 vaccination against smallpox. Three booster doses given, and two children tested for tuberculosis.

The staff for the day was A. Henley, of the Mother's Clinic, and Mrs. G. MacMahon, of the Lincoln Health Unit, Miss Floyd and Miss Isabelle Price health nurses; and Dr. Robinson, Health Officer.

The next clinic will be June 1st.

An old-timer is the one who can recall when a college education could be secured at a reasonable cost.

# SALON BERNARD

## Our First Anniversary

Ladies,

A hearty THANK YOU to all you ladies who paid us a visit during the year. We are here to stay, because we love every little bit of Grimsby—and fashion.

We are here to help you with any problems regarding your hair, and it is our duty to tell you that our records show 75% of the girls of this province have difficult hair: some of the causes—the dampness of the weather, hard water, and improper care of the scalp. There is more premature greyness in early age—more dandruff and dry hair than in any other part of the country.

Then beware, ladies and teen-agers, how you treat your hair. Beware made permanents or any home-made treatments. This is very important, for you damage your hair or scalp or health, it will take many years of expense to bring them back in good condition.

Why not see your licensed professional beautician and tell her your problems. You can be sure that your hairdresser has a permanent wave for your purpose and the special texture of your hair. Our advice is free, and so happy to help you.

Ladies, do you know that the most important preparation for a good permanent wave is the shaping of the hair?

Just as important is the fact that this must be done by the person who will cut the hair and designs the finished hair style.

Only your professional beautician has the experience to do these things correctly. Visit your beauty shop regularly: you owe it to your beauty.

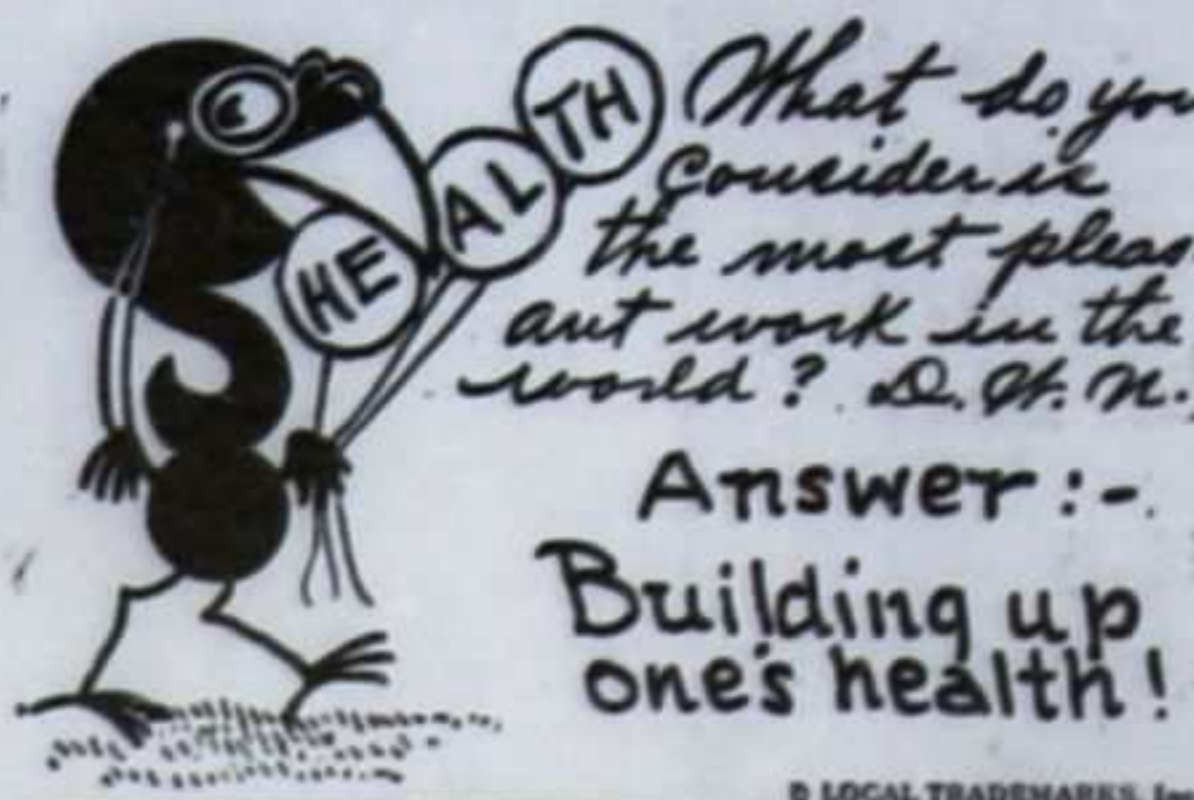

Thank you!

Telephone Your News Items To Her.

Mr. J. McGee is visiting in Mimico at the home of his daughter, Mrs. R. A. Teal.

Mr. H. Johnson of London, visited at the home of Mr. and Mrs. W. Lampman last week.

Mr. and Mrs. C. Simpson from Windsor are at their cottage Donna Belle for a few weeks.

Mr. and Mrs. Norman Ruff, of Sudbury, visited over the week at the home of Mrs. R. R. Pope.

Mrs. C. Delaplane has returned to her cottage after spending the winter with her daughter in Toronto.

Mr. and Mrs. R. G. Sterling attended the MacDonald and Livingston wedding at Brantford on Saturday.

Mrs. James Maher from Brantford, spent a week visiting at the home of her cousin, Mrs. L. E. Pearson.

Visiting their parents, Mr. and Mrs. J. McGee on Park Road, are Dr. and Mrs. E. Pyffe and daughter, Gail, of Picton, Ont.

Mrs. T. J. Carlyle and daughter Lynn from New Westminster, B.C. are visiting her sister Miss Louise Olderman and Miss L. Howell for a few weeks.

Guests at the home of Mr. Geo. Jarrett over the weekend were the Misses Willa Legart and Rae Morrow and Dr. and Mrs. R. Fralick of Toronto.

Guests at the home of Mr. and Mrs. Walter Schott over the weekend were Mr. and Mrs. Norman Dowling and Mr. Douglas Woodley, all of Toronto.

Mrs. A. H. Lyon of Dundalk, mother of Mr. Bert Lonsway and Clarence Lonsway and family visited with Mr. and Mrs. Bert Lonsway over the weekend.

Mrs. J. McClelland has returned to her cottage after spending the winter in Mexico with her son, Robert McClelland, and latterly with her sister in Olean, N.Y.

Mr. and Mrs. A. L. Greenwood went to Delaware last week to visit Mr. and Mrs. P. H. Davidson. Friends will be sorry to learn that Mrs. Davidson is very ill again.

Captain Hal Hayter and Mrs. Hayter of Montreal, called on Mr. and Mrs. C. W. Riches on Sunday afternoon. Capt. Hayter was with the original Royal Black Watch.

Guests at the home of Mr. and Mrs. Roy Rosebrough over the weekend, were Mrs. Rosebrough's father and mother, Mr. and Mrs. W. Johnson and her brother and sister.

Mr. and Mrs. E. H. Baresel, Miss L. Jetty, Mr. and Mrs. Steven Nhat and baby Nancy of Olean, N.Y., who have been spending a few days with Mrs. J. McClelland have returned home.

Friends of Mrs. James Hildreth will be sorry to learn that she had the misfortune to fall on Saturday morning and break her hip. She was taken to the Hamilton Hospital by ambulance.

Miss Ruth Clark, Miss Joan Sterling, Bill Sterling Jr., and Mr. Wm. Sterling arrived home Monday evening after spending the weekend at Kiski Prep. School, Saltburg, Pa. They also visited relatives in Carnegie, Pa.

Guests at the home of Mr. and Mrs. William Hunter, for a few days are Mrs. Hunter's sister, Mrs. William Fraser from Montreal, and Mrs. Hunter's niece, Mrs. H. Keith from Rochester, Minn.

Baby Rhonda Keating from Barrie, who was in the accident on the Queen Elizabeth Highway a week ago Sunday has a broken leg and will be confined to the hospital for a month. All the other occupants of the car who were injured are doing as well as can be expected.

At the weekend Mrs. James Gillespie of Park Road, went to New York to meet her brother and his wife, Mr. and Mrs. W. A. McFadden from Belfast, Northern Ireland, who were aboard the Mauretania. On Sunday they all attended the christening of John Gillespie Green, grandson of Mr. and Mrs. James Gillespie. Mr. and Mrs. McFadden will be the guests of Mr. and Mrs. Gillespie for the summer.

### BEACH WOLF CUBS

Three new cubs were invested into our Pack on Friday. Ted Fuller, Bruce Bramham and Bobby Lee joined in the Grand Howl, led by Terry, for the first time. Bryan Hyland received his 1st Star.

Terry Molloy presented a fine collection of stamps, neatly mounted in a stamp collector's book. Keep up the good work, Terry. The late President Roosevelt started in a small way, too. At last we had the ribbons for the proficiency badges to attach to our Totem. Harry Dancer was promoted to Sixer of the Browns and Terry Molloy to Seconder. Skipping game for points and marching.

The Red Six won the pennant for the month. Bryan Hyland took the howl. Are your claws clean?

### Card of Thanks

I take this opportunity of thanking our good neighbours and friends for all their kindness, which was very much appreciated, during my recent illness.

— Mrs. I. E. Irvine

### ORDER EASTERN STAR

Mrs. Margaret Williams, D.D. G.M., visited Grimsby Chapter on Tuesday evening, May 18th, for the purpose of inspection of officers. The Victory Matrons of District No. 6 and other visitors from Kenmore, Hagersville, Stoney Creek, Vancouver, Smithville and Hamilton Chapters were welcomed by W.M. Mrs. Chester Elmer and W.P. Mr. Lawrence Hysert.

Mrs. Arthur Clark, entertainment convener, announced that a Lever Brothers lecture "Parade of Fashions" would be held in the Chapter Rooms, Tuesday, June 1, at 3 o'clock. Afternoon tea will be served for which a charge will be made. Everybody welcome.

The benevolent convener, Mrs. H. G. Mogg, reported that a Penny Sale would be held at the close of the June Chapter meeting.

Mesdames Clarence McNinch and Livingston Foster were appointed to pack this month's food parcels for overseas.

Mrs. Williams congratulated the Chapter on all phases of its work. Delicious refreshments were served by Mrs. Belle Wilson and her committee.

Prior to the meeting Mesdames Marjorie Hitchman, Grand Chaplain, Inez Cloughlye, P.D.D.G.M., and Isobel Nelson, P.M., of Dorcas Chapter, Smithville, entertained the Victory Matrons Club to a dinner in the Oak Room of the Village Inn.

### Obituary

William Whittaker Weaver, William Whittaker Weaver, of Winona, died unexpectedly last Thursday, at the Hamilton General Hospital, at the age of 59.

A member of Fifty United Church, Winona, he was also a member of Wentworth Lodge, A.F. and A.M., Stoney Creek, of the Order Railway Telegraphy, and past president of Winona Baseball Club.

He was an employee of the C.N.R. for 38 years, and for the last 33 years, he was the freight and express agent of Winona.

He is survived by his wife, the former Lillian H. Nash; three brothers, Alfred, in Sarnia, Harold in Wyoming, Ontario, and Ernest in Chicago; and one sister, Mrs. L. H. Valentine of Bailey's Harbour, Wisconsin.

Funeral services were held on Saturday afternoon with interment in Stoney Creek cemetery.

It seems when a hat designer has a foolish idea he capitalizes on it by making a woman's hat.

### Births

May 13—To Mr. and Mrs. Walter Hills, Grimsby, a son.

May 16—To Mr. and Mrs. Cyrus Buckingham, Winona, a daughter.

May 18—To Mr. and Mrs. Joseph Peters, Grimsby Beach, a son.

May 18—To Mr. and Mrs. Frank Dorosh, Grimsby Beach, a son.

### In Memoriam

BOLTON—In fond remembrance of my dear husband, George Edward Bolton, who passed through the pearly gate of Heaven to his eternal rest May 20th, 1942.

—Never forgotten by wife, Bertha; sisters and brother.

MASON—In loving memory of Charles A. Mason, Sr., who passed away May 13th, 1945.

Memories of you are a keepsake, With which we will never part. God has you in His keeping. And you are always in our hearts. —Ever remembered by his wife, Fred, Lucy, Elsie and Barbara.

The average mother would probably enjoy a little leisure—that is, if she could ever have any.

determined how much it actually costs to deliver the power to the municipalities, any overcharge is refunded.

The Southern Ontario system embraces the Niagara, Georgian Bay and Eastern Ontario divisions. In 1946, the credits totalled \$2,794,887.

NOTE:—Members of Grimsby Hydro Commission state that they have not as yet been informed as to how much money will be refunded to the Grimsby system. The Commission will meet in monthly session on Wednesday afternoon next at which time they expect that this information will be tabled.—Ed.

## LIONS CLUB

George Nelles, Bob Bourne.

It was pointed out by acting Chief Carm Millyard, that nominations could still be presented for any one of the offices, and this was in effect until the June election meeting.

Lion Mel Johnson gave a brief report on the work of the Civic Improvement Committee, in which he said that the bleachers at the Public School were now almost completed, and that this Committee would soon be turning to still another project to further benefit the community.

Lion Bob Johnson presented a report to several of the members who had brought a new member into the Club last January, when a drive for new blood in the Club was held.

The guest speaker of the evening was Dr. D. V. Currey, Director of the St. Catharines-Lincoln Health Unit. He was introduced by Lion Herm Terry, Sanitary Inspector with the Unit. In his introductory message, Lion Terry gave a rather full summary of the career of Dr. Currey and of his work with Health Units.

Dr. Currey, who himself is the oldest Charter member of the St. Catharines Lions Club, opened his address, which was in two parts. The first pertaining to the work of

Lions Clubs, and the Grimsby Club in particular, and followed by a concise and instructive summary of the work carried out by the Unit throughout the County and the city of St. Catharines.

Dr. Currey had this to say about the functions of the Grimsby Club: "This Club has surprised us all since its reorganization ten years ago. Your accomplishments have been many, and the record established is a great one. So often the first lap is full of energy, but later on enthusiasm begins to wane, and finish is not a strong one. We must have good leaders and good organization, and it is important that a Club such as this never fails to remember that they should be of service to not only the town in which they function, but also neighboring towns, townships and the entire section. Failing in this, the Club will not be a success."

"Often a Club will fail because it has in its membership, members who are of no use to the Club. There are the critics who consider only their own ideas as good ideas, the sulky member who sits back and takes no active part in the debates, these types of members are of no use, and a Club has no place for them," concluded Dr. Currey.

About the Health Unit, Dr. Currey stated that at the present time it is the largest Unit of its kind in the country to-day, and one of the most efficient.

Formed in August, 1945, at the request of Lincoln County Council, the cost per capita is \$1.10 annually. A government rebate amounting to 50% of what the County puts into it is returned to the County. Actually here in the town of Grimsby, the service which the Unit renders costs just about a thousand dollars a year.

Dr. Currey went on and gave a graphic outline of a few of the jobs that are carried out by the Unit, and which do not come to the attention of the populace.

The control of tuberculosis in Lincoln County is one of the big jobs, and just how successful this work has been is best noted when only eleven deaths were reported from this disease last year, this from a population of seventy thousand.

"As far as can be ascertained this is the lowest death rate from T.B. in the world," said Dr. Currey.

He also paid high tribute to Dr. Shafer and the fine work he has done at the Sanatorium, which Dr. Currey considers one of the best in existence.

With regard to child health, Dr. Currey stated that it was the Unit's aim to "keep a well baby well." Saving babies is the aim of the Unit, and through the magnificent work of the Women's Institute and other ladies' organizations who work in close co-operation with the Unit, the infant mortality rate has decreased greatly since the service was inaugurated.

"People wanted the service, as did the school boards who have co-operated at all times, and with our efficient District Nurses away on the job, many physical, emotional and dental defects are discovered early, and measures taken to have them corrected," said Dr. Currey.

## COUNCIL APPROVES

was not to be satisfactory. If such an arrangement were carried out then it would be quite possible that the Grimsby school would be closed. The Area Board would be constituted of one member from Grimsby, one member from Beamsville, two members from Clinton Township, one member from Smithville and three of the members from the County Council. It would be a very large Board. Your Board could not see that this plan would be satisfactory to the Council or to the people.

"Our pupils practically all come from Grimsby and North Grimsby," stated Mr. Dymond, "therefore we believe that Grimsby and North Grimsby should be united into one district and take in other territory if so desirable. At the present time there are 210 pupils attending Grimsby school of which one-half are from the township."

Bonham—"Would our costs under the suggested plan be higher than under the original school area plan?"

Dymond—"The Consultative Committee figures that under the school area plan the cost would be three mills. Under our plan the cost would be 2.6 mills based on Grimsby and North Grimsby assessment. If we raised our 2.06 mills to three mills (approximately \$4,000) we could use the difference per year for increased school courses and facilities. Other mon-

ies are subsidies from the Department of Education. Under this suggested plan we would have a localized school with no transportation of pupils whereas under the area plan transportation costs would be in the neighborhood of \$60,000 a year, which figure is included in the area plan three mills cost."

Bonham-Constable—"That the brief of the Board of Education be passed on to the Consultative Committee of the County Council." Carried unanimously.

The suggested brief as submitted to council is herewith printed in its entirety:

Premise—The Grimsby Town Council and the Grimsby Board of Education consider that any plan or proposal which could, in the future, result in the Town of Grimsby being without a local High School, cannot be considered as a desirable solution of the High School Area problem in West Lincoln.

Whereas—The population of the Town of Grimsby has increased by 21.5% (to 2,414) in the past five years, therefore it is assumed that the population will reach 3000 in a reasonably short time;

Therefore, in order to assure that the Town of Grimsby shall have local High School facilities in the future and that the Township of North Grimsby shall be assured of convenient High School facilities, the Grimsby Town Council and the Grimsby Board of Education suggest that,

Suggestion—The Consultative Committee look into the feasibility of uniting the Township of North Grimsby and the Town of Grimsby as a High School district, to include also any other area as it may be expedient to include, in order to permit of a satisfactory solution of the problem of the Consultative Committee, provided that any additional areas utilize the facilities of the Grimsby High School.

It is recommended that, if the above suggestion seems feasible, that the Consultative Committee arrange to meet with the Council of the Township of North Grimsby, the Council of the Town of Grimsby and the Board of Education (Grimsby), so that understanding and agreement may be promoted.

By PEG 'N LYNN

Hup, two, three, four! Hup, two, three, four. So the commands stream across the field. Cadet day will dawn tomorrow. We are hoping for a good many spectators from the town. Stan Bernard is bringing his orchestra down for the event. Admission will be 50c a person for outsiders and 25c a person for students. So come on everyone—get out to the dance. You are assured of having a good time.

There will be more excitement at the school on Monday. The playing field has had its face lifted in honour of the event. We are hoping that Grimsby puts up a good fight and carries off many of the events.

Well, the exams have caught up to fifth form. On Tuesday we begin the May exams, so next week there may not be a column. The rest of the school has been granted exemptions, and any hardworking student with an average of 75% is excused from the finals in June—a fine reward for hard work.

Mrs. James A. Wray on Thursday, the 13th, with the president Mrs. W. E. Burke, presiding.

There was a good attendance of members and some visitors were welcomed.

The scripture lesson was read by Mrs. W. H. Morris, and reports were given by secretaries of different branches of the work, followed by treasurer's and secretary's reports.

Mrs. Fred Reiss had charge of the program for the month and was assisted by Mrs. J. H. Dick, Mrs. Burke and Mrs. Morris, all dealing with work in India.

Mrs. Wray told some interesting items she had chosen for Current Events.

Mrs. Lillian Johnson sang the beautiful solo, "Teach me to pray," which was very much appreciated by her listeners.

The meeting closed with the Mizpah benediction.

The hostess served a dainty lunch, which was enjoyed by all.

## Women's Institute

The annual meeting of the Women's Institute was held at the home of Mrs. S. Stuart, Robinson St. S., on Tuesday evening of this week. The Roll Call was payment of fees. Delegates appointed for the District Annual in June were Mrs. L. Larsen and Mrs. Robert Neale.

The film "Let There Be Light," which was taken at Guelph on the occasion of the Fiftieth Anniversary of the Women's Institute, will be shown here shortly.

After the business meeting, the election of officers followed. Mrs. F. J. Burton, convener of the nominating committee presented the slate of officers for the coming year.

President, Mrs. Wm. Layton, secretary, Mrs. L. Larsen, treasurer, Mrs. G. G. Graham; first vice,

Mrs. F. J. Burton, second vice, Mrs. H. Harvey, district director, Mrs. L. Larsen.

Other officers appointed were: press correspondent, Mrs. F. J. Burton; auditors, Mrs. E. Wilcox, Mrs. Caton; Pianist, Mrs. F. Merritt; Board of Directors, Mrs. Wm. Layton, Mrs. L. Larsen, Mrs. G. G. Graham, Mrs. J. Fisher, Mrs. W. Ransom, Mrs. Robert Neale.

The June meeting will be held in the Legion rooms on Depot street and will take the form of a box social after the business has been dealt with.

Mrs. Wm. Layton, Mrs. H. Harvey and Mrs. G. G. Graham were on the social committee and served a delightful lunch. Mrs. L. Larsen entertained with several guessing games which rounded out a most enjoyable evening.

A vote of thanks was extended to Mrs. Stuart for her home for the evening.

Job had patience, but, of course, he never skidded and fell on a newly polished floor.

## FOR SALE

—Mr. and Mrs. H. Bull.

### FIREMEN TRAVEL FAST PREVENT BAD BLAZE

What might have been a nasty and expensive fire was nipped in the bud early Saturday morning when a blaze broke out in the workshop of Shafer Bros. on Murray St.

The incipient blaze was discovered shortly after seven o'clock when workmen arrived to commence the day's toil. At 7.15 an alarm was turned in and Chief LePage and the pumper truck were at the scene within three minutes of receiving the call with the result that very little damage was done except to one machine. Shafer Bros. claim that it was the fast response of the firemen that saved the situation.

A blaze in an old jolopy on Victoria Avenue near the Merritt Bros. factory gave the firemen a run on Sunday afternoon just when it was raining the hardest.

## BREVITIES

### EVENTS and TOPICS of the WEEK in TABLOID .....

Next Monday is Victoria Day.

Big sports day next Monday on the Grimsby High School grounds.

High school Cadet Corps inspection at the High School grounds tomorrow night.

Make it a date to attend Grimsby's big Sports Day on the holiday. A good time for all.

Niagara-on-the-Lake tax rate has been struck at 52 mills, seven mills less than last year.

The Lincoln County Federation of Agriculture are co-operating this year with the Junior Farmers in staging a County Picnic and Field Day on Victoria Hall Grounds, Vineland, on June 12.

Next Monday being Victoria Day all places of business in Grimsby will be closed including the Bank of Commerce and the liquor store. Holiday hours will prevail at the Post Office.

At the sittings of the Court of Revision for the addition of names to the Voters' List to be used at the forthcoming election a large number of names were added to the lists for both Grimsby and North Grimsby.

Romaine K. Ross, K.C., Reeve of Port Dalhousie, president of the Children's Aid Society of St. Catharines and Lincoln County, has been elected to the executive of the Provincial Association of Children's Aid Societies. His new position is honorary secretary.

The Independent was in error last week in the publication of the obituary of the late Wm. Boughner of Beamsville, when we stated that a surviving sister was Mrs. Mary Margaret Durham. We should have said Mrs. Mary Margaret Marlowe, of Robinson street south, Grimsby.

Alex. C. Lewis, chief election officer for Ontario, has announced that Daylight Time is the time adopted to govern all official business in connection with the forthcoming election on Monday, June 7th. Polling booths will therefore open and close on Daylight Time.

Roy Smye, Stone Road, Grimsby Mountain, reports that his pedigree Scotch Collie bitch, 17 months old, gave birth to a litter of 11 fine puppies recently and she raised them all. He states that there is not a cull in the bunch.

Rome L. Taylor, of Trenton, a former publisher of The Independent, was a visitor to Grimsby on Wednesday. Since leaving Grimsby Mr. Taylor has been in several business ventures. He started and operated a job printing plant in Barrie for some time, selling this out to purchase the Deseronto Post which he disposed of last January and moving to Trenton started the Trenton Daily Press, an eight page tabloid, which in turn he disposed of last week. He is now on the lookout for another newspaper location.

### LEGION JOTTINGS

WEST LINCOLN BRANCH,  
No. 127

The monthly General Meeting was held on Wednesday, May 19, and was well attended. It was regretted that Mr. O. S. Boare was unable to be present, owing to his attendance on a case in St. Catharines.

Stewards and Track Officials were arranged and among other business a portion of the branch by-laws was read and approved, this latter work has been prepared by Major R. G. Saunders of Beamsville.

The Branch has affiliated with the Amateur Athletic Union of Canada (South Western Ontario Branch). This will give all amateur athletes competing in track and field events at Grimsby permission to compete and protect their Amateur Status.

All members are requested to report to the Clerk of the Course at the High School on Monday, May 24th, at 1 p.m. Arrangements have been made for the Women's Institute to hold their monthly meeting in the Legion Club House.

There will be a meeting of all members of the Committee and Officials for the Sports Day at the Legion Club House on Sunday, May 23rd, at 3 p.m.

Mr. O. S. Boare, Supervisor Lincoln County Citizens' Committee, heard nine Veteran and Dependants cases on May 12th at the Club House. Any Veteran or Dependant wishing advice should write the Service Officer, Canadian Legion, Grimsby.

Ho. hum! A happy drunk can sometimes make those he is around unhappy.

A California man has been married 15 times. Maybe it has just become a habit with him.

### VANDALS DESECRATE MR. McAVOY'S CHURCH

An item from Nanaimo, B. C., concerns Rev. Francis McAvoy, former Presbyterian minister here in Grimsby. Rev. McAvoy was a very patient and broadminded man, but we rather imagine his patience was taxed to the limit, when he discovered that vandals invaded his church and held a drinking party, using the communion table as a bar.

Entry was gained by smashing a window, and apparently a boisterous party was soon underway. The highly polished altar was ruined by beer stains and burning cigarettes. Two charity boxes were also broken open, and the contents taken.

### WOLF CUB PACK

Fred Davies received his First Star by completing the first stage in his climb up the Cubbing ladder.

The White Six led the Pack in the evening's inspection.

Tests were passed by Akela as follows:  
Jim Gregory—Savings Account.  
Ronald Hyland—

Leap Frog.  
Larry MacPhail—Knots.  
Jack Hewitt—Knots.

Richard Brown—Book Balancing.  
Don Wilson—Leap Frog.  
Donald Roberts placed his ribbon on the Totem Pole for repassing his Toymakers Badge that he gained in a previous pack.

The signalling class under Mowgli is progressing quite rapidly.

Akela continued the campfire story after Lyn Cooper led the pack in "One Little Elephant."

A biologist says human beings are fast losing their little toes. Maybe it's because one has to be on his toes all the time.

# CONGRATULATIONS—CARROLLS

Carroll's Limited was founded by Mr. William Carroll in 1893 and was operated by him until his death in 1934. The first store was located at Emerald and Wilson Streets, in Hamilton.

Emerald was then "the east end" of Hamilton. The city's boundary was Wentworth street. Wentworth street, between Cannon and Barton was a wagon rut.

The capital involved was \$250.00 this sum representing William's savings and those of loyal members of the family. The goods acquired by the deal consisted of a store and stock, a horse and delivery wagon, a sleigh and no customers.

People who scan the list of Carroll's stores today can form only a faint impression of the circumstances under which the business had its birth. William had just quit his job at the factory, and knew a little more about the grocery business and business in general than his horse knew about algebra. His principal assets were a good head, a will to succeed, liking for hard work, and a generous share of pluck.

Customers were lacking, as we have said, because his predecessor it transpired, was in another store a couple of blocks over, and when the change came removed the Emerald street store customers with him.

### GOT CUSTOMERS BUT —

Customers were always essential to any business, so William had to get out and hunt them up. While his sister kept the store, he went out with his horse and wagon soliciting business. He canvassed people he knew, when the list was exhausted, he canvassed people he didn't know. He secured from friends the names of possible customers and he also solicited large boarding houses. By means of this enthusiastic but indiscriminating pursuit of customers, he soon procured a choice collection of bad debts, which threatened the infant business with extinction.

The ordinary working day was 14 to 16 hours. In the morning at 4 o'clock William would hitch up and drive to the Hamilton market for the needed supplies of butter and eggs, potatoes, green vegetables, beans, fruits, etc.

### AN INNOCENT ABOARD

The business of buying had its pitfalls for the innocent and unwary, and William was not yet versed in the science of "mundologia." Genial farmers showed him good potatoes and delivered him bad ones. They supplied him with bushels of apples with big rosy ones on top and little green ones underneath. The business has owed much to Mr. Carroll's skill and shrewdness as a buyer, but his initiation was that of any other raw beginner. He learned how to buy by being "stung."

It was anything but easy getting established, surrounded as he was by bigger and better shops, well stocked, and with well established names in the grocery business.

Business was so bad that he hesitated about ordering, which of course made for poorly stocked shelves. The business was certainly not growing by leaps and bounds.

### "JUST A MINUTE MA'AM"

One evening a customer was buying a number of articles. At each item William said, "Yes, Ma'am." When he got to "a quarter's worth of sugar," then William politely said, "Excuse me just a minute, Ma'am," and reached for his hat. The customer looked up with astonishment as he disappeared out of the store. He returned breathless some minutes later with twenty-five cents' worth of sugar from a neighbouring store.

When the second year had run by, William Carroll's spirits were at such a low point that he couldn't force himself to take inventory. He resolved to try the grocery business for six months more. Failing, he would close up the store and look for his job at the factory again.

### AND THEN

It was at this critical period that he took the step which seemed to change the whole face of his fortunes.

### HE DECIDED TO ADVERTISE

Other grocers occasionally got out handbills or dodgers for house to house distribution. William Carroll now resorted to this radical method to advertise himself into patronage. He decided to advertise, not occasionally, but every week. At a cost of one dollar a thousand, he had printed a list, including cash specials, for Saturday only. The distribution was made Friday night, William taking one side of the street, and a boy the other, making sure that each dodger found its way into the letter box.

### THE TIDE TURNED

Saturday morning found the customers hot on the scent of the cash specials. It was a small but encouraging beginning. As the weeks sped by, the tale of bargains whispered through the letter boxes brought an increasing number of new faces into Carroll's store. When six months of grace had expired, William found himself slowly working up the ladder, and out of debt. At the end of the year he took stock, and found that he had actually made a small profit.

Naturally the bargain day innovation stirred up competition from the neighbouring stores, but by this time William Carroll had learned to hold his own.

Twice during the latter six months he wavered in the program of advertising every week. This was at the solicitation of friends, who urged that persistent advertising was unnecessary, and that people would soon regard with suspicion a business that spent every week the huge sum of \$1.50 plus sacrificed profits for advertising purposes. Each time the advertising lapsed, however, receipts undulated accordingly. Thus William

Carroll became a confirmed believer in persistent advertising.

### WHO PAYS FOR ADVERTISING

"They thought that people would figure I was taking it out of my customers. The truth was, I was taking it out of myself, and getting it back again" is Mr. Carroll's philosophy on this point, thereby furnishing a very suggestive answer to the disputed question, "who pays for advertising?"

After four years of hard work, William Carroll had established himself in the east end of Hamilton. His ads were breezy, rather than blatant. His bargains were scorchers. The atmosphere of his store was cleanly and cheerful. His merchandise was beyond reproach. He had laid the foundations for future success.

In those lean years when he could scarcely put in an order on his own street, it had been his ambition to serve every house on Emerald street from King to Barton. The time came when there was not a house on Emerald street at which he could not put in an order.

### SECOND STORE

Then he determined to take over a second store, located at Macaulay and James streets, which someone had acquired through a mortgage and wished to dispose of. After much doubt as to the wisdom of trying to run two stores, he resolved to make the venture. It was a hazardous undertaking considering the state of his finances, but nothing daunted, he secured a supply of lumber from the Brennan Lumber company (located where the Spectator building now stands) and built the store fixtures himself. A second-hand counter, a rented horse, a ten dollar wagon—and Carroll's second store was announced to the world in the spring of 1898. At the same time the order for handbills was increased to 2,000 copies.

### STORE NO. 3

The second store started off successfully, and William Carroll now had visions bright with hope to compensate for the depression of the early days. In the fall of the same year he secured a third location at 115 John Street south. To gather in trade for this store he secured post office lists, and addressed and mailed 1,000 handbills through the district over the Mountain, extending from Hagersville to Dunnville. The first Saturday's receipts did not pay for the cost of the advertising, but this piece of advertising eventually pulled in big trade from the farmers of the surrounding district.

The opening day of the John street store was not very auspicious. The first customer was a man who announced that he had made a mistake as soon as he opened the door. Mr. Carroll dragged him in and sold him five gallons of coal oil. The same family has been dealing at this store ever since. (The location was subsequently changed to 94 John Street south.)

Then Mr. Carroll went into the

THE LATE WILLIAM CARROLL

west end, at the northeast corner of Locke and Hunter streets, following which he established himself at the corner of York and Caroline. Next he came uptown, locating at 80 James street north. This site became a valuable one, and a few years later, Mr. Carroll sold out his lease, the store becoming the Red Mill theatre.

### NEWSPAPER ADVERTISING

In 1903 Mr. Carroll was successfully operating his six stores and was rapidly making his mark in Hamilton business life. It was in this year that he began newspaper advertising, taking space in the Spectator and the Herald. For years Carroll's advertising has been a newspaper feature on Thursday editions.

In 1910 Mr. Carroll had seven stores, being established as far east as Fullerton avenue and Barton street. At this time he was delivering a large quantity of groceries to the new district known as

Crown Point. Mr. Carroll now decided to locate a large store at the corner of Ottawa and Barton streets. The street cars then ran as far as the Jockey Club, but Barton street, between Sherman and Ottawa was hardly fit to be named a street. Ottawa street was a mud road, irrigated on either side by wide ditches in which frogs and toads piped a spring tune. It was a radical step, and again friends warned him, and the talk had it that William Carroll was without reason. But he carried out his plans, and a large business block was erected at the corner of Ottawa and Barton streets. Mr. Carroll's faith in the expansion of East Hamilton has been abundantly justified through time.

### CONTINUED STRUGGLE

There were no smooth years in this period of the history of the business. Although Carroll's Stores (Continued on Page 10)

## AWAY BACK WHEN BUTTER WAS SELLING FOR 10 CENTS A POUND

Away back in the dark dim past, say along about 1895, one of the big worries was the cost of living. Prices were on the upgrade, and of all things, people were discussing the possibility that butter was going to jump another cent, bringing this commodity up to eleven cents per pound. How strange this seems now, with the price of butter increased almost seven fold. (That is providing you can get it.)

In a special supplement of the Hamilton Spectator, dated January 23, 1930, considerable space was given to an article concerning prices in the supposedly Gay Nineties. From this article we have taken excerpts, and trust that it will not disillusion you readers too much. We are living in a fast moving world, and moving right along with us has been the gradual increase in the price of the foods that grace our tables fifty years ago, and today.

Through fifty-five years of serving the needs of the consuming public, Carroll's have stocked their shelves with the necessities, whether the price was at rock bottom or sky high. Conditions prevent a merchant from selling lower than the current existing prices, that is to any great degree, but always the Carroll stores have displayed their goods at prices that were comparable or better than their neighbours.

To continue from this now rather amusing account of the times.

"Well I see butter has jumped again. It's eleven cents a pound now. Last week it was ten. Guess I had better get a couple of pounds before it goes any higher." Humm...eggs, three dozen for a quarter. That's cheap now, but it ain't like the good old days when you could buy all you liked for five or six cents a dozen. Beats all how things are going up."

Thus the housewife mused as she looked over the Carroll weekly bulletin in the early Nineties. Many gallons of water have surged under the bridge since butter was 10

cents a pound, and eggs three dozen for a quarter, but the old-timers will recall when these prices did exist.

Here are some of the prices at which the housewife's eyes would gladden as she checked over the news from Carroll's faithful "dodger" distributed every Friday evening.

Least any reader scanning these figures should be constrained to ejaculate, "backward, turn backward, O time, in your flight," let it be known that the home manager in those days had to budget her grocery expenditures out of a wage of six to ten dollars a week, if her man was working steady. Things were not so rosy then as they would appear through the telescope, at this distance.

### TIMES WERE HARD

Actual destitution was more common then than it is now. Unemployment cast its grim spectre over a large portion of homes. When Mr. Carroll started business it was quite common to keep a large family "on the books" all winter, supplying them with the necessities of life without any return. Times improved with increased employment, wages increased and so did the prices of commodities. But the circumstances of the working man have improved tremendously.

Many familiar institutions of the grocery store of the early days have disappeared in the intervening time. Carroll's first store was lighted with kerosene lamps. Kerosene was one of the important items of the grocer's stock-in-trade.

### NO CRACKER BARREL

There was the ubiquitous barrel, but the ubiquitous cracker-barrel of the first period never formed a part of the scenery of the first Carroll stores. But with the new improvements of the modern day such as scales, special display counters, refrigeration, etc. the stores are spotless centres of attraction.

**A MESSAGE FROM WILLIAM CARROLL**

They do not speak truth when they say there is no sentiment in business. Somewhere far back in the days of my adolescence these words came to me: "Give to the world the best you have, and the best will come back to you." Ever since have they been with me.

I have given to the world the best I had. The best has come back to me. But ever there were others who helped me to give of my best. In the early days, when understanding, loyalty and hard work counted for much, members of my own family gave in unstinted measure. Later, as the business grew, and it became necessary to bring in others, it was my good fortune to have around me men and women of sterling worth, and loyal as well as able.

And there were those other friends, my customers—some of them as old as the business itself; some not so old, but all of them real friends—the backbone of the whole structure. Thus it has been all down through the years, just an ever-widening circle of good friends.

And this, I hold, is the best that has come back to me; this, the one thing of which I am immensely proud, that it has been permitted me to have and to hold so much of the confidence and goodwill of so many people, for so long a time.

Now I say to you, my friends, to whom I have sold; my friends, from whom I have bought; my friends, who have helped me in every department of the buying, selling and management of this business. What you have given to me has been fully valued, truly and deeply appreciated. And I thank you.

(signed) William Carroll

Ed. Note—The above message appeared in the Hamilton Spectator on January 23, 1930, when Carroll's were celebrating the opening of their 100th store. Four years later the founder of Carroll's Ltd. passed away. The sincerity of this message applies even today with the Carroll organization, and it is for this reason that we have reprinted it in this supplement, dedicated to the opening of the new Grimsby store.

**CONGRATULATIONS!**

achieved unexampled popularity with the consuming public, there was a continual struggle with interests that sought to defeat the enterprise by cutting off supplies. The memory of those bitter conflicts is softened in the light of these happier and kindlier days, when what is called the chain store has become accepted as an integral part of the economy of business, and not treated as a menace to be crushed by fair means or otherwise.

The year 1917 was notable for the inauguration of the famous Cash and Carry policy. By this time there were thirteen stores and from then on it was slow but steady expansion. In 1921 the total was considerably augmented by the taking over of the S. R. Weaver chain, numbering eleven stores.

**EXPANDED BEYOND CITY**

Up to 1924 Mr. Carroll had confined his stores to Hamilton, and the immediate vicinity. In that year, however, he undertook the opening of five stores in Brantford. Later he went to Kitchener, St. Catharines, Guelph, Niagara Falls, Grimsby, and other points in the surrounding districts. In each section the Carroll Stores were well received and expansion was always proceeding.

**GRIMSBY NEWEST STORE**

During the war years very little was done about remodeling or opening new stores, because of war-time restrictions on labour and materials. It is the present policy of the firm to expand to new, larger, modern Food Markets. In keeping with that policy, the store in Grimsby is the newest and most up to date store in the chain. Here in the one store you can buy all your food requirements—groceries, fresh meats, fruits and vegetables. No expense has been spared to make this a convenient and pleasant place to shop in. Every piece of equipment is brand new and of the latest and most modern design—rubber tired shopping carts, electric mincer and slicer, computing scales, electric cash registers, newest type coffee mill etc.

The meat department is equipped with the newest type of refrigerated meat counter, to keep the meats that are on display fresh and appetizing. For meat storage there is a modern, refrigerated walk-in box, with a separate refrigerated compartment for fresh fruits and vegetables. The temperature in these storage boxes is automatically controlled to keep the food in perfect condition.

A uniform temperature is provided in Carroll's store in Grimsby, at all times, by the most modern heating system. Hot water coils are suspended from the ceiling as the heat from them is distributed by fans which are thermostatically controlled.

For years Carroll's distinctive color scheme has been green and white. In this store the walls are tinted a cool green and even the floor is tiled in shades of green. Fluorescent lights are used throughout the store to diffuse light and eliminate shadow. Shelving is built low enough for everything to be easily reached by the shopper and the prices are plainly marked on all merchandise.

All in all, Carroll's is the most modern and up to date store in Grimsby and the Fruit Belt.

Many a man extinguishes his light by burning the candle at both ends.

**NEW STORE BUILDING IS OF  
MOST MODERN CONSTRUCTION**

Modern in every respect, the new Whyte and Jarvis building, which houses Carroll's Ltd., is a sample of present day standards right from the sound proof ceiling to the mastic tile floor.

Of cement block and brick construction, the building is insulated with the Silver-Flex type of insulation materials, with inside measurements 28 x 83.

The ceiling is of Ashlar block, which besides being of a sound-proof nature, is also beneficial as insulation.

The display shelves are of the latest design, ultra smart in appearance. They are constructed in such a manner as to be of the utmost convenience to the customer. Aside from a large fruit stand, there will be over two hundred feet of shelf space. At the rear of the spacious store a complete meat department will operate. All the latest equipment for the proper display and refrigeration of meats has been installed.

Flourescent lighting throughout also aids considerably to the efficiency and beauty of the store.

The heating plant is a feature, for with the Trane system which has been used, as engineered by W. L. Higgins, the temperature may be controlled to within one half of one degree Fahrenheit at all times. There are four heaters, two of which work constantly, while the remaining two are controlled thermostatically. The Trane automatic heating system operates on hot water, circulated at 180 degrees. The boiler room is a separate building and houses an all-steel boiler, stoker operated. The system can also be used as a cooling system of air conditioning.

That just about describes the new store which opens to-day for the inspection of the people of Grimsby, and in which Carroll's will operate to the satisfaction of the consuming public.

**MEET HARRY FRANCE  
NEW STORE MANAGER**

This is by way of an introduction to Harry France, in whom Carroll's have a world of confidence, and feel that the people of Grimsby and surrounding districts will also find Harry a fine chap and a capable manager of the new store.

Harry has been with Carroll's eight years, including a hitch with the army during World War II, in which he served as a despatch rider.

Since his discharge he has been a most efficient manager of the big Carroll store at Aberdeen and Dundurn Streets in Hamilton, and although he owns his own home in the Ambitious City, he will be moving to Grimsby when he solves the housing problem here. Harry hopes that one of his customers might put him on track of a home here in town. A married man, around the thirty year mark, he has no family.

**IF CHAIN GROCERY  
COULD ONLY SPEAK**

I WOULD SAY:  
To The Public:

Here I am, conveniently located on your Main Street, with my many shelves loaded with the finest foods nature and man produce, all priced so that you may have the very best at a moderate cost.

I am one of a chain of many stores, all dedicated to supplying you with the requisites of your household, and because we are many units linked together in one organization there are opportunities for economical operation which we are pleased to have and proud to pass on to you, our customers, in reduced prices.

Because I am a big business you have a right to expect more from me than you would expect from the smaller stores. Because I am a big business, I will see that you get all you expect every time you visit me.

To The Manager And His Assistants:

You are the spirit and soul of me. You open the door in the morning and bring the sunshine of living service in with you. My customers expect much of you. You are to please them and

keep them coming back. They must receive as much as they expect and a little more.

I am happy when customers leave feeling well toward me. I am unhappy when they feel otherwise as a result of some inattention. I want to be a bright spot with the public—so bright that our chain store may grow. So bright and lively that you and I may come to be looked upon as a real asset to your neighborhood.

**I AM THE CUSTOMER  
OF THE CHAIN STORE**

I am well satisfied with the goods I buy and I like the service that the chain stores give me.

I know that when I bring an article of food into my home from the chain store, it is all I expect it to be. I have no fear of serving or eating the foods I buy at the chain store.

I do not need to keep posted on current prices, because I know the chain stores sell all articles at the lowest prices obtainable in my neighbourhood.

I can buy every article for my kitchen at the chain store because the lowest prices on one line of goods are not made up by the higher prices on other lines. This saves me from shopping around to get the benefit of my money.

I can get the standard food products at the chain stores that I am accustomed to using, and those articles which are not known to me by brand and name I may depend upon because the chain stores guarantee my satisfaction or my money back with every purchase.

I am a booster of the chain store every time!

Faithfully, your customer,  
Mrs. John Public.

**A UNWISE MAN**

At the scene of an automobile accident, the two drivers were arguing, but not on the usual lines. The lady, who was obviously at fault, admitted it; but the man kept insisting he was to blame. "Why," he concluded, "I saw you pass before I left home this morning. I knew you were out with the car, so it was my fault for being out at all!"

**OPTIMISTIC NOTE**

It has been a popular attitude to see in every mechanical advance a threat to individual human effort. All these gloomy forebodings have been wrong. Technical developments haven't cost jobs. When dial phones were first introduced, sentimental oldsters began lamenting

that the cheerful voice of the telephone operator would soon be a thing of the past. But the facts were somewhat different. Take Toronto as a case in point. It is many a long day since one could discover an old-style telephone. Three new exchanges are being opened to add another 12,000 serve-self phones. And the telephone girl? She has refused to disappear with the dodo

and the passenger pigeon. Toronto has still 1,524 where in the good old clubby days of 1939 there were just 404.

Maybe the reason some men use so much profanity is because one doesn't have to watch his pronunciation.

## LOVER'S KNOT BOUQUET

By PRUNELLA WOOD

May and June are both months which brides dote upon, in the flowery time of the year. For those who are collecting six of this, and a dozen of that, getting set to name the day for the wedding, this beautiful-bride picture is shown. The enchanting frock is made of white nylon tulle, set with medallions of lace, ruffling and sequin embroidery... the whole mounted on blush tint pink satin... and the bouquet achieves the nearly impossible: A new looking arrangement which is yet good with the classic and the ritual.

Lilies of the valley have been tinted the palest pink, then set on wires to be woven into a true lover's knot, to be carried in the bridal procession to the ceremony. Clusters of lilies trim the veil.

Hello Homemakers! The asparagus shoots springing from the earth look so good we wish we could eat them raw. It has been a long time since we tossed our own garden greens together into a salad bowl. However, one thing we can do is cook and chill the asparagus tips to serve marinated, with potato salad or jellied vegetables. To "marinate" leave the cooked vegetable (in this case) for an hour in French dressing or seasoned vinegar and salad oil.

**JELLIED ASPARAGUS SALAD**  
2 tbsps. gelatine, ½ cup cold water, ½ cup vinegar, 2 cups boiling water, 1/3 cup sugar, 1 tsp. salt, 1 pound fresh cooked asparagus, ½ cup sliced olives, lettuce, celery curls.

Soak gelatine in cold water for 5 minutes. Add vinegar, boiling water, sugar and salt and dissolve. Chill until slightly thickened. Pour a small amount into moistened or oiled mould or individual moulds. Chill until firm. Arrange asparagus tips in the mould attractively with sliced olives. Pour in remaining gelatine mixture and chill thoroughly until firm. Unmould to serve on crisp lettuce. Garnish with watercress and celery curls. Serve with mayonnaise. Yield: 6 servings.

**CREAM OF ASPARAGUS SOUP**  
2 bunches fresh green asparagus or 2 cups canned asparagus, ¼ cup chopped onion, ½ cup chopped celery, ½ cup cream, 6 cups chicken stock, 3 tbsps. butter, 4 tbsps. flour, salt, pepper, paprika.

If fresh asparagus is used, wash and cook standing upright in a deep saucepan or bottom of a double boiler, covered with upper part or deep saucepan, so that stalks of asparagus are thoroughly cooked while tips are steamed until tender. Remove tips and reserve them. Place asparagus stalks, onion and celery in chicken stock and simmer for ½ hour. Rub through a sieve. Combine butter, flour, seasonings and cream as in Basic Recipe for Making Cream Soups. Add asparagus stock. Heat in a double boiler. When hot add the asparagus tips. Yield: 6 servings.

**CHEESE ASPARAGUS**  
Dip asparagus tips or stalks in Thick White Sauce, then in grated cheese, roll in bread crumbs, dip in beaten egg and then in bread crumbs. Bake in electric oven at 375 degrees until golden brown.

### TAKE A TIP

1. Add asparagus to cream sauce rather than sauce to asparagus to prevent curdling.
2. To prevent lumps forming in a cream sauce mix the flour with enough cold milk to make a smooth paste and stir hot milk

constantly while you add the thin paste slowly.  
3. Crisp the crackers for soup. Place them on a baking sheet and heat until lightly browned.  
4. Croutons are favourite accompaniments for soup. Cut stale bread in half-inch slices, then cube. Place in a baking pan and brown in a hot electric oven.

### THE SUGGESTION BOX

Mrs. B. J. W. suggests: (1) Keep a pair of nutcrackers in the kitchen drawer to unscrew bottle caps.  
(2) Flour pieces of meat lightly before you put them into food chopper. This prevents the grinder from clogging.  
(3) Use a thick paste of cornstarch and water to remove grease spots from wallpaper. Brush it off gently when dry.

Mrs. T. M. suggests: (1) To

clean nickel scrub with soapy water then apply whitening with a cloth dampened with ammonia water. Let dry and rub.

(2) Wash a floor mop in warm water with a little turpentine. This will cut the wax.

Mrs. J. K. suggests: (1) To stiffen organdy curtains, veils and scrim dollies use gum arabic. Pour 1 quart of boiling water over ¼ lb. gum arabic and let stand until dissolved. Strain through a cheesecloth and pour into a bottle. Use from 1 to 3 tablespoons to 1 cup of water. NOTE: When buying gum arabic from the drug store ask for white crystals as yellow ones tend to stain.

Anne Allan invites you to write to her c/o The Grimsby Independent, Grimsby, Ontario. Send in your suggestions on homemaking problems and watch this column for replies.

### NO VALUE

When a husband claimed \$1,000 damages in a divorce case at Birmingham, the judge said: "Your wife has no value whatsoever, and therefore you are not entitled to recover anything."

## West Lincoln Memorial Hospital

Grimsby Beach, May 17th, 1948

An Open Letter To The Residents Of West  
Lincoln County:

We, the members of the Medical Council of West Lincoln Memorial Hospital, in offering our support to the Board of Directors in the selection of the Nelles property as the site of the new hospital, wish to outline the factors important in medical consideration.

1. The confidence of the patient who is secure in the knowledge that outside help is readily available at all times should the need arise. That such confidence could be established on the site of a former disaster is questionable to the extent that convalescence might be retarded, and many might seek hospital care elsewhere.

2. Town water under pressure is readily available.

3. The location, being on a main thoroughfare, provides accessibility in any weather. The experience of many patients having to walk up a hill made impassable for vehicles by snow, sleet and freezing rain is thus eliminated. This circumstance has too often risked a life to be overlooked.

It is the only approved site in the Township satisfactory to the Department of Health which keeps faith with the resolution passed in the open public meeting held on February 8th.

5. The knowledge that any salvage value remaining on the old site would necessitate rebuilding along the same pattern as the former building, leads your Medical Council to believe that a plant more modern, more efficient and more economical in operation will be constructed on the site selected.

Yours faithfully,

(signed)

J. K. Moss, M.D.

H. D. Latham, M.D.

G. H. Smith, M.D.

W. A. M. Russell, M.D.

N. S. Bowers, M.D.

A. F. McIntyre, M.D.

J. H. MacMillan, M.D.

J. V. Christie, M.D.

The selection of the Nelles property on No. 8 Highway as a site for the new West Lincoln Memorial Hospital is based on the wishes of the following, which include the Medical Council, the Department of Health, and the Public.

1. The above letter sets out the opinion of our Medical Council.

2. The Provincial Department of Health states—The Nelles property site is for the greatest good of the public.

3. At an open public meeting held on February 8th, 1948, at which all organizations and municipal councils were represented, after a lengthy discussion, the following resolution was passed unanimously:

"That the Hospital be not rebuilt on the old site."

On behalf of the Board of Directors,

A. R. Globe, Chairman.

## SPORTOLOGY

(By Bones Livingston, Sportologist)

IT WON'T BE LONG NOW—You simply cannot keep him out of sport. I understand that Mike Sweet is the trainer of the Merchants team in the Fruit Belt League. . . For years Honey Shelton has been a great supporter of Connie Mack, the veteran manager of the Philadelphia Athletics in the American league. Now the Little Shoemaker is laying odds that Connie will cop the championship and the World Series. When you go in the Old Back Shop be careful with your baseball prognostications. . . Next Wednesday night the stentorian voice of the empire will be calling PLAY BALL. It will be the opening games of the Fruit Belt league. Thanks to Earl J. Marsh and the Lions Club, the fans and fanettes will have a fine grandstand to sit in and watch the gladiators of the diamond perform. . . Harry Biggar, the Cherry King of Fruitland, was in the office the other morning and he is highly elated over the manner in which his three harness horse colts are rounding to form in their spring training. He says that he is not rushing them too fast as he has no intention of going to the races until all the cherries are in the cold-pack. . . Limey might just as well close The Bowl-away for the season. His most faithful attendant has gone back to agriculture. From now on the dirt will fly on Paton street. . . Go take a look at that swell display of bowling league trophies in the Model Dairy window. . . First home game of the ball season will be played at the school grounds on Friday night, May 28th. The two Grimsby teams will be providing the thrills. . . The local two buck punters report that the beagle hounds called horses that are running down in Toronto are just as slow as they ever were so far as they are concerned. It won't be long until the winnings the boys made on the Peach Kings last winter will all be in the oat bin.

TRY THIS ONE OUT, BOOB—It was the last half of the ninth of a Texas League game in the '30s between the San Antonio Missions and the Tulsa Oilers, the Missions at bat and the score tied. With the bases loaded and two-out, Art Scharen went to third to coach and Sam Harshbary came in as pinch hitter. The count ran up to two strikes and three balls. The Tulsa pitcher glanced at the bases, stepped on the rubber and started his stretch. At the peak of the stretch Art Scharen's voice came bellowing from third base, "Hold it, Buddy!" The pitcher dropped his arms and looked toward third. The game was over. The umpire called it a balk, advancing all runners one base and forcing in the winning run.

BEST WISHES AND GOOD MOTORING FOR AN ESTIMABLE YOUNG LADY—Barbara Ann got THAT car. This news in Canada's capital pushed into a secondary place in the papers the reports of Parliament, the strikes and the strife of the world.

With all the available women's figure skating championships tucked under her arm, Miss Barbara Ann Scott may now accept the smart car her admiring townspeople bought for her a year ago but which she was forced to return because of the threats by Avery Brundage, chairman of the U.S. Olympic Committee, that acceptance of the gift would cost the young lady her amateur status in the Olympics.

On the same page that announced Barbara Ann would receive the key to the car from Mayor Stanley Lewis of Ottawa, there appeared a paragraph which disclosed that since her return from Europe during the winter, the young lady had grossed \$400,000 for charity in the ice shows where she has delighted thousands with her grace and skill.

Her participation in these shows has been a fine, generous gesture which has raised substantial sums for charitable purposes. It is further evidence that in addition to being a star on blades Barbara Ann is a fine young lady and a shining example to all who take part in sports and athletics.

## NUMEROUS EVENTS FOR GRIMSBY SPORTS DAY

Final preparation for the big Sports Day are nearing completion, and it is expected that the 24th will be a big day here in the town of Grimsby. Athletes from the district will be competing for many prizes donated by the merchants of Grimsby and surrounding area, and by those interested in the promotion of amateur sports. In addition to these prizes, there are several trophies to be won by winning athletes, including two Independent Cups, one to be awarded to the winner of the Ladies' High Jump (Close) and the other to the student successfully completing the five mile road race.

Another beautiful trophy will be presented to the student with the highest number of points, which trophy will be held by the school where the winner is enrolled.

Col. G. R. Chetwynd has announced that arrangements are underway to work in affiliation with the Amateur Athletic Association of Canada. This being the case, considerable prestige will be added to this annual sports day sponsored

## CAPTAIN AND CUP

That's Rudy Migay, captain of the Port Arthur Bruins, proudly displaying the Memorial Cup, emblem of supremacy in Canadian Junior hockey, which his team won this year. The Bruins took the best-of-seven series in four straight games over the Barrie Flyers.

by the West Lincoln Branch of the Canadian Legion.

The names of officials for the meet have been released. They include: Official starter, Rev. B. A. O'Donnell; Timekeepers, Nick Saunders, K. Griffith, K. Philbrick and J. Tennant.

Record Clerks will be Kay Pyn-dyk and Mrs. N. Warner. Announcers will be Andy Stevenson and Gord McGregor.

Refreshments will be served by the Ladies Auxiliary, under the direction of Miss A. Crane and Mrs. Maeder.

With the first event scheduled for one o'clock, it is hoped that the weather will be tops for this fine program. It is still not too late for entries to be made. These should be forwarded to Mr. Andy Stevenson as soon as possible, however.

The following is a complete list of events:

100 Yard Dash (Open).  
100 Yard Dash (Closed).  
220 Yard Dash (Open).  
220 Yard Dash (Closed).  
One-Half Mile Relay Race open to High School teams of four of Beamsville, Smithville, Saltfleet and Grimsby.

AS ONE SLUGGER TO ANOTHER

Top men in their trade, Ted Williams of Boston Red Sox (left) and Joe DiMaggio of the New York Yankees, compare profiles during a series in Boston, Mass. Williams is out to repeat as champion batter in the American league. "Terrific" Ted won the title last year, his third victory as leading hitter. DiMaggio won the crown twice.

**PHEASANT EGGS ARE AVAILABLE AT FARM**

Pheasant Breeders' Association Will Provide Eggs To Farmers And Sportsmen For Hatching.

The Niagara District Pheasant Breeders' Association has nearly 1,000 pheasant eggs available to farmers who wish to hatch a setting at their own farms. Association officials said Saturday that any persons in the area who would like to try a hatching of pheasants may obtain one or two dozen eggs free from the pheasant farm on the Pelham Stone Road, just outside St. Catharines.

Many farmers, particularly those interested in hunting, have expressed a desire to try a setting of the nimble little birds which, of course, will have to be liberated when they grow enough to fend for themselves.

The Pheasant Association held over 435 hens and 70 cock birds from last season's hatch to provide breeding stock for this year's flock. The hens are now laying profusely, and the seven incubators at the farm, are working to capacity with 750 eggs in each.

About every three days, chicks start pecking their way out of the shell, so trays of eggs from that incubator are transferred to a special hatching incubator, and the original incubator is filled with new eggs.

But either the hens are laying more eggs or have started earlier, for the Association has more eggs than it can handle. Rather than let these go to waste, they decided to distribute them to interested farmers. Already 1,500 more eggs have been laid than at the corresponding time a year ago.

Last year some 25,000 eggs were laid at the farm. From the settings, selected from the best eggs, 18,000 chicks were hatched.

Association members are looking forward with renewed confidence to a large supply of birds for this fall's pheasant season, produced not only from the flock lib-

erated this year but also from the natural increase of native birds and those liberated from the pheasant farm over a period of the last few years.

## SIMPLE ARITHMETIC

If industry gave all its profits to increase wages, as the wage earner so often suggests, it would add just four per cent to those wages for just the length of time it took industry to recognize that business, on those terms, was unprofitable. At an average weekly wage of \$40, the wage earner would be jeopardizing his future for a matter of an additional \$1.60.

# Your FURNACE Should Be Cleaned NOW

OUR CONDITIONING SERVICE IS DESIGNED TO PUT YOUR HEATING EQUIPMENT IN FIRST CLASS CONDITION SO AS TO PROVIDE THE MAXIMUM IN HEATING COMFORT. WE HAVE SPECIALLY TRAINED AND EXPERIENCED OPERATORS WHO USE ONLY THE MOST UP-TO-DATE EQUIPMENT.

HERE'S WHAT WE DO—

## Makes Courageous Dash Into Flaming Trailer WINS DOW AWARD

**JACK SOMERSBY OF VANCOUVER, B.C.**  
risks life in gallant attempt to save aged owner

All was quiet in the little auto camp just outside Vancouver. Suddenly, from her cabin window, a woman saw a glare in the distance. Then, as she peered into the darkness, the glare became more brilliant. A trailer belonging to 74-year-old Thomas Whittaker had burst into flames.

### RUNS FOR HELP

Running to Jack Somersby's cottage, the woman told him of the fire. "You get an ambulance," he said, "and I'll try to save the old gentleman." Sprinting the 50 yards to the blazing trailer, Somersby wrenched the door open, entered the trailer and in a few seconds had Whittaker out and on the ground. The old man's hair and clothing were afire... and Somersby used his own hands and body to extinguish the flames. Minutes later, both Whittaker and Somersby were on their way to hospital. The rescuer was treated for severe burns about the hands and face. The older man failed to recover.

The fact that his rescue attempt was in vain does not detract from the courage and unselfishness of Jack Somersby of Vancouver. We are proud to pay him deserved tribute through the presentation of The Dow Award.

THE DOW AWARD is a citation for outstanding heroism and includes, as a tangible expression of appreciation, a \$500 Canada Savings Bond. Winners are selected by the Dow Award Committee, a group of editors of leading Canadian newspapers.

Frantically the woman pointed out the blazing trailer to Somersby. They both knew that 74-year-old Thomas Whittaker was trapped inside. At once Somersby rushed to the rescue.

Later, talking to reporters at the hospital, his hands swathed in bandages, Somersby was modest about his heroic action. "Anyone would have done the same," he said quietly.

## GREAT IMPROVEMENT SHOWN IN COUNTY MILK PRODUCTION

By Dr. D. V. Currey, M. O. H.  
LINCOLN HEALTH UNIT

Early in 1947 65% of the milk delivered to dairies in Lincoln County was shown by laboratory examination to be dangerous; by the end of the year this situation had considerably improved, but even then about 45% of the milk sent to the dairies was not safe. This condition cannot be allowed to continue, but it can be corrected if the producers understand and carry out the instructions given them by the St. Catharines-Lincoln Health Unit. From time to time samples of each producer's milk is taken, sent to the laboratory for examination, and graded by the Resazurin Test. There is also a microscopic examination done at the laboratory.

No producer should be satisfied with anything but Grade 1 milk, free from bacteria and pus cells. Grade 2 milk is of fair quality and may be quite safe to use. Milk in Grades 3 and 4 should not be allowed to go to the dairies, because this milk can never be made safe even by processing. A producer having milk in these grades should immediately find the reason he is not producing "quality" milk, and should rectify the trouble at once. The result of the laboratory tests on the milk will usually indicate whether the trouble lies with the cows, the utensils, the milking, the milk house, or the cooling.

An inspector from the Unit visits the farm to help with milk problems, takes samples either at the farm or when the milk comes into the dairies, and takes this milk to the laboratory for examination. In certain instances, to conform with the regulations, the inspector must insist on changes in stables, milk houses, or cooling facilities. This is not done with the idea of causing the farmer expense, but to try and make sure that he produces safe milk, and to help increase safety and efficiency in production. Milk is practically the only farm product which brings in revenue the year round, so the more safe milk that is produced the greater the financial return for the farmer.

Milk is a great factor in regard to health. Few people can be really healthy, unless plenty of dairy products are used. These contain all the essential elements necessary for life — fats, proteins, carbohydrates, vitamins, and minerals. While milk is a food we can hardly do without, if it is not produced under perfectly sanitary conditions or if handled carelessly, it can be responsible for serious illnesses. Infected milk may carry the germs of tuberculosis, undulant fever, diphtheria, scarlet fever, septic sore throat or typhoid fever. Regardless of how carefully raw milk is produced, or how well it is handled, it may be dangerous unless it is always kept very cold. Disease germs get into milk from the cow, from some worker who is carrying communicable disease, from utensils that have not been properly sterilized or during transportation to the dairy. These germs increase rapidly when the milk is warm. In Canada during the past 30 years there have been some fifty wide-spread epidemics due to milk, involving thousands of people among whom there were 780 deaths. These could have been avoided, had the milk not been contaminated.

In order to supply perfectly safe milk, there must be healthy cows, all persons handling milk must be healthy, milking must be done in a sanitary manner in clean surroundings, milk pails and utensils must be perfectly sterilized, each pail of milk must be cooled as soon as received from the cow, and the cans in which the milk is shipped must be absolutely clean. If a milking machine is used there must be cleanliness and proper sterilization of all necessary parts. At the dairy all apparatus and bottles must be sterilized before using, pasteurization must be properly done, the milk immediately cooled and delivered to the consumer at a temperature not over 50 degrees Fahrenheit.

There are still some people who think that by straining, clarification, and pasteurization any milk may be made safe. This is a big mistake, because dirty milk or milk which contains many harmful bacteria can never be made fit to use. The term "quality" in milk or cream means that it is safe for human consumption, free from disease germs, have a satisfactory food value, free from dirt and unpleasant odours or flavours, and keep sweet for a reasonable length of time. The farmer is responsible for producing safe milk, he must keep it as free as possible from bacteria and must check the growth of the few that do get in. In this there are three chief factors, clean healthy cows; clean sterilized utensils; and prompt cooling and of the milk at a low temperature.

The cows should be tested to make sure that they are free from tuberculosis and Bang's Disease, and all reactors should be taken out of the herd. Even when cows are groomed daily, and the udders washed before milking, some dust or hair may get into the milk; but when cows are filthy, considerable

amounts of manure and dirt enter, these contain bacteria which may cause "ropy" milk and various bad flavours. Infection in the udder may result in garget or mastitis. If milk from any one quarter is watery, thick or bloody, it is absolutely unfit for human consumption, so a veterinarian should be called at once.

Clean sterilized utensils are very important in milk production. Bacteria are able to grow rapidly on the moist surfaces of strainers, cans or other utensils. Open seams, cracks, dried-on milk, or "milk-stone" make it much harder to clean utensils and increase the chances of serious contamination. Utensils must be in sound condition with absolutely smooth surfaces. Pails must be scrubbed with a brush using soda or cleanser in hot water with a final rinse of clean very hot water, then placed upside down to dry on a clean draining rack. Poorly cared-for milking machines or utensils may prevent a safe milk. Strainers usually do more harm than good, it is better to keep dirt out rather than try to strain it out.

Perhaps the most important thing in regard to milk keeping fresh is the cooling as soon as it is received from each cow. The cans of milk should be cooled until well below 50 degrees Fahrenheit in order to keep it in good condition, and prevent the growth of bacteria. A properly constructed milk house with good cooling facilities is essential for the production of safe milk. Perhaps the best type of cooling apparatus is electrical, but if plenty of ice is available it may be satisfactorily used. Ice water from a deep well or spring can be used with care, but water that is not below 50 degrees Fahrenheit can never be satisfactory for cooling milk. The milk house should not be used for storing anything except in regard to milk production and it must be kept clean and tidy and absolutely must be screened against flies.

The officials of the St. Catharines-Lincoln Health Unit are most anxious to help all producers supply clean safe milk to the dairies, and from time to time the Unit will send you pamphlets or other articles which will help with milk production. If you are having problems in regard to milk, please let us know at once and one of our inspectors will visit your farm. It is hoped that during 1948 all of the milk supplied to the dairies in this county will come from cattle free of tuberculosis or Bang's disease, and that production will be so carefully looked after on the farms that all the milk will be Grade 1, which means that the milk is "quality" and perfectly safe to use.
